IQAC Action Taken Report 2021-22

The College could take the following actions based on suggestions and discussion held in two IQAC meetings in the year 2021-22.

1. **Suggestion:** To establish Incubation center that will provide training on TET, and in-service training to pass out students on teaching skills. Some amount of budgeting could be kept for expenses to show that there is seriousness in establishing this center.

Action: The College has established Research, Development and Innovation Cell, which takes care of the suggestion. The college is providing TET training to the students not necessarily through this cell, but through our Extension Services Department.

2. **Suggestion:** To provide training to Students in writing job application and CV

Action: We have Communication Skill courses for our students. Through this course we provide training to our students on various aspects of communication skill including writing job application and writing CV. Students get guidance on these skills from all teachers.

3. **Suggestion:** To generate fund through Alumni Association membership

Action: We have an alumni association. The registration of it is under process. Once it is done, membership fees could be collected.

4. **Suggestion:** To generate fund through PTA

Action: We have a PTA functioning in our College. We are collecting PTA membership fees.

5. **Suggestion:** To generate fund from industrial and corporate houses

Action: We do approach them occasionally and get their support. However a systemic way it needs to be carried out. And that is contemplated.

6. **Suggestion:** Past students to be invited to interact with the students.

Action: We have several Co-curricular activities for which we call our past students as chief guest or as speaker. They come and spent their time interacting with our students. This provides motivation to our students and develop a sense of achievement.
