GOA VIDYAPRASARAK MANDAL'S DR. DADA VAIDYA COLLEGE OF EDUCATION PONDA – GOA

SYLLABUS FOR M.Ed. PROGRAMME (2019 Onwards)

M.Ed.

Program Learning Outcomes (PLOs)

The M.Ed. programme aims at developing attributes needed to become an effective school teacher for 21st century. To achieve that aim, the learning outcomes of the M.Ed. programme are set as follows.

The programme will enable the prospective teacher educators to:

- PLO 1: Develop a multidisciplinary perspective of education.
- PLO 2: Acquire professional skills and competencies to function as a teacher educator.
- PLO 3: Appreciate the challenges of theorizing education and identify relationship between theory and practices.
- PLO 4: Develop rational conceptualization of educational research.
- PLO 5: Integrate ICT in teaching learning and training transaction.
- PLO 6: Equip with different innovative modes of training transactions.
- PLO 7: Understand, evaluate, and address the wide range of challenges and rapidly changing circumstances faced by students, teachers, families, and communities at large.
- PLO 8: Develop cores kills, knowledge, and way soft thinking that are central to the teaching profession.
- PLO 9: Undertake supervised research studies in the field of education.
- PLO 10: Appreciate the complex is sues ineducation and real-worlds cenarios and draw on their knowledge and skills over the entire coursework and throughout their career.
- PLO 11: Develop expertise in areas such as educational technology, ICT and E-learning,
- PLO 12: Develop in depth understanding in educational administration, programme planning, management, implementation and evaluation.
- PLO 13: Be capable of addressing the diverse needs of students; understand the magnitude of challenges faced by learners and adopt suitable teaching-learning approaches, strategies and technology.

SEMESTER-I

GUMED-PC1: INTRODUCTION TO EDUCATION STUDIES

Credits: 4 Maximum Marks: 100

Contact Hours per week: L2+1T Internal: 50 Examination: Two Hours External: 50

Objectives:

The course study is intended to make the students to develop ability to:

- Understand the nature and purpose of education and perspectives about education system and process;
- Reflects on the educational ideas and systems of various thinkers and develop the ability to theorize educational practices;
- Analyze the process of education;
- Appreciate the disciplinary and the interdisciplinary nature of education;
- Develop the attitude of and abilities to contextualize the education process;
- Build one's perspective of education through reflection.

Unit-I: Education: Changing Meaning, and Nature

- Concept of Education: Normative and Non-normative concept; as a family of processes
- ; as initiation; criteria of educative process from the analytical school perspectives
- Aims of education in the context of emerging aspirations and political ideology

Unit-II: Education as Disciplinary Knowledge

- Object of Study in Education: Distinct Nature and its multifacetedness
- Disciplinary Nature of Education:
- Interdisciplinary and multi-disciplinary Nature of Education
- Education as Humane Discipline

Unit-III: Context of Education

- Education as an Act and Process: Constituents/ Determinants
- Socio-cultural Context: How it shapes the classroom processes and relations (Classroom debates needs to focus on to understand how social and cultural capital students carry into classroom condition their participation and learning
- Politico-economic Context: How it creates conditions for (equal) opportunities for learning (Classroom debates and processes needs to be situated in the context of Liberalization, Privatization, Marketization and Globalization to develop critical understanding and proper perspective)
- **Psychological Context of Education:** How psychological attributes one possessed with facilitate in one's own learning. (Motivation, Aspiration, Attitudes towards learning and education)

Unit-IV: Alternative Educational Theories and views of Radical educationists

(Reading Classic Texts/ part of the text that results in the development of perspective)

- Idealistic Theory of Education: Plato's The Republic,
- , Realistic theory of Education: Aristotle's Politics, Bertrand Russel's on Education
- Naturalistic Theory of Education: Rousseau's Emile, and Gijubhai's Diwas Swapna
- Pragmatic Theory of Education: Dewey's My pedagogic Creed/ Democracy and Education
- Existentialists and Phenomenologist's' views on education

Radical Educationists and Their Works: A Critical understanding

- Paulo Freire: Pedagogy of the Oppressed
- Ivan Illich: De-Schooling Society
- J Krishna Murthy: On Education
- Aurobindo Ghosh: The Integral Yoga (Integral education)

Transactional Modalities:

- Library readings; exposition; Lectures
- Discussion on video films and audio cassettes on education by J. Krishnamurthi and other thinkers
- Discussion on video films on Rishi valley, Shantiniketan to understand the reflection of philosophical and educational ideals of thinkers on these systems

Sessional Activities:

 Analysis of different perspectives on the concept and purpose of education (John Dewy, Rousseau, Sri Aurobindo, J. Krishnamurthi, Paulo Freire, B Russel, Gandhi and Tagore) and presentations

GUMED-TEC1: TEACHER EDUCATION I

Credits: 3 Max. Marks: 100
Examination Duration: 2 Hours Internal: 50
Contact hours per week: Lectures: 2+Tutorials: 1 External: 50

Objectives

On completion of the course, students will be able to:

- Gain insight and reflect on the concept of teaching and the status of teaching as a profession
- Examine the nature and objectives of teacher education
- Discuss the growth and the development of teacher education in the country.
- Appraise the existing teacher education curriculum from the standpoint of its relevance to the demands of present-day school curriculum.
- Reflect on various issues and concerns related to teacher education
- Use various methods and techniques for transaction of curriculum.
- Develop understanding for organizing and supervising school experience programme(SEP)
- Use various strategies for the professional development of teachers;
- Critically examine the role and contribution of various regulatory bodies and support institutions for improving quality teacher education
- Prepare teachers as reflective practitioners

Course content

Unit I: Teacher Education - An Introduction

- Teachers in India: The changing profile; changing roles and responsibilities of teachers and its demands on teacher education
- Teacher identity, social status: a critical understanding
- Teacher education: meaning nature and scope
- Reports of National Commissions on education with reference to teacher education (National Knowledge Commission)
- Reports of International Commissions on education with reference to teacher education (Learning the treasure within)

Unit II: Preparation of School Teachers

- Teacher education institutions and their functions: GUs, Colleges of Education, University
 Departments of Education, Elementary Teacher Education Institutions, ECCE Teacher education
 institutions: institutions established under Centrally Sponsored Scheme of Teacher Education
 namely, IASEs, CTEs, DIETs, BRCs and CRCs.
- Models of pre-service teacher education:
 - **Face to Face Mode:** <u>elementary level</u> 1 year model; 2 years model; 4-year integrated model <u>secondary level</u> -; one year model; two-year model;
 - **Distance Mode:** one year model; 2 years model.
- Teacher education curriculum: overview of curriculum frameworks for teacher education (1978,1988, 1998, 2006 and NCFTE 2009) and vision of NCERT & NCTE towards teacher education.

Unit III: Curriculum Organization, Transaction and Evaluation

- Transactional approaches for the foundation courses expository, participatory, collaborative, peer coaching and inquiry. Scope and possibility of organization and evaluation, Lecture-cum-Discussion, Group Discussion, seminar, Use of Multimedia/ICT and E-resources
- Transactional approaches for the skill and competency development courses need for awareness

 modeling analysis practice feedback cycle. Scope and possibility of organization and evaluation
 practicum records and portfolio assessment, (Ways and Means for Transaction: Project Methods, workshops, team teaching, case study,)
- Evaluation Techniques- self-appraisal, peer evaluation, reflective journals, portfolio assessment. Evaluating Classroom Processes (including internship)

Unit IV: Continuing Professional Development of Teachers

- Concept and importance of Professional Development
- Approaches of Professional Development: in-service education; self-study; participation in seminars; workshops, panel discussion, Symposium; organization of study groups and study circles.
- Role of professional organizations in teacher education.

Sessional work

Each student is required to do any TWO of the following and submit the report of the sessional work before the commencement of examination.

Assignment/term paper on selected themes from the following

- Study the history of teacher education in India: trends, developments and forces that shaped teacher education.
- Relevance of teacher education curriculum
- Writing review of at least one book related to teacher education
- Critical study of teacher education Curriculum frameworks-1978,1988,1998,2006
- Preparation of Training Plan for INSET giving the rationale, target group, costing of resources and phases of training
- Construction of tools for identification of training needs
- Preparation of self-learning material for D.Ed./B.Ed. students on any identified topic
- Study of the Cadre and Recruitment Rules of a State
- Appraisal of norms/standards of teacher education developed by NCTE
- Appraisal of regulatory and accrediting bodies for teacher education

GUMED - PC2: HISTORY, POLITICAL ECONOMY OF EDUCATION

Credits: 3 Max. Marks: 100
Examination Duration: 2 Hours Internal: 50
Contact hours per week: Lectures: 2+Tutorials: 1 External: 50

Objectives

The course intends to:

- Provide opportunity to probe into history of schooling;
- Develop perspective on the origin and nature of schooling;
- Develop understanding about the changing functions of schooling historically;
- Abilities to view education from political economy perspective;
- Appreciate the relationship between education and political economy;
- Provide opportunity to develop critical understanding about the politico-economic basis of emerging education;
- Provide criticality regarding Intellectual Property Rights and the role of International and other organizations;
- Provide opportunity to develop consciousness and sensitivities among learners towards preservation of indigenous knowledge systems.

Unit-I: History of Schooling

- Schooling across civilizations with special reference to India
- Origin of Schooling: Socio-historical context of origin;
- Need, nature, functions and purpose of schooling in its origin;
- Schooling For All: Genesis, Need and purposes: A critical understanding
- Functions of schools: cognitive, economic, socio-cultural, normative and ideological: A historical Analysis/Inquiry/ Understanding
- Changing nature of school in its functions and purposes

Unit-II: Political Economy Perspective of Education

- Political Economy: Meaning and Purpose
- Political Economy as method of understanding education and its nature
- Education: The instrument of Political Economy

Unit-III: Political Economy of Indian Education: A historical journey

- Political Economy of:
 - Ancient Indian Education-Vedic and Buddhist
 - Medieval Indian Education
 - Basic Education-1937

Unit-IV: Knowledge Economy and Education: Knowledge as property

- Indigenous Knowledge systems: Meaning and the nature of the knowledge;
- Liberalization, Privatization, and Globalization: Changing nature of knowledge
- Role of International Agencies in transforming knowledge into property: GATT/s, WTO

- Education as Merit Good and Non-merit Good: A Critical understanding
- Politics of Knowledge: Intellectual Property Rights (IPR) Concept, Origin and Development
- Implications of IPR to Education Particularly Higher Education
- Patent rights: Implications to Indigenous Knowledge systems
- IPR and Right to Education

Transactional Modalities:

- Initiation of the dialogue by the Most Knowledgeable Other (MKO);
- Library readings;
- Observational studies and activities;
- Presentations by students on selected themes- individually and collectively.
- Documenting the dialogues.

Sessional

Essential Readings: Reports of commissions, policies

GUMED - CLS-ELE1: ELEMENTARY EDUCATION -1

Credits: 3 Max. Marks: 100
Examination Duration: 2 Hours Internal: 50
Contact hours per week: Lectures: 2+Tutorials: 1 External: 50

Rationale

The course intends to develop among the prospective teacher-educators a thorough understanding of elementary education as a specific stage of education with the perspective to lead into an area of specialisation. This course has a focus on orienting the students to the organisational structure, administration, policy and practice at the elementary stage of education. Along with the knowledge into the basic structure and function of elementary education, the course would guide them to critically analyse school practices, the programmes being implemented; make them aware of the leadership role of the central government, decentralisation of authority and financing, budget consumption and actions taken for the expansion and improvement of elementary education in the country. In addition, it would sensitise the students about major concerns, challenges and research in the area of elementary education. The intention is to blend the academic theory and sessional activities with the field experience of the student.

Objectives

The course intends to:

- Develop philosophical, sociological and psychological perspective on Elementary Education
- Develop understanding about status of Elementary education in India
- Appreciate the organizational structure and functions of institutions in administration and management of elementary education at various levels
- Develop perspectives of decentralization of administration and management of elementary education
- Critically analyze importance of curriculum development, pedagogy and assessment at Elementary Education
- Analyze various elementary education curricula and review with a focus on its objectives
- Develop perspective of inclusive education

Unit-I: Planning, Policies and Administration

- Constitutional provision; recommendations of Education Commission, National Policies of Education
- Five-year National development plans—shift in focus on elementary education, budget consumption of elementary education
- Decentralization of authority and financing: role of Panchayati Raj Institutions (PRIs), Urban Local Bodies, SMC, PTA/MTA
- Right to Free and Compulsory Education Act 2009

Unit-II: Programmes and Implementation Strategies at Elementary Education

- Centrally sponsored schemes assumptions, implementation strategies and impact (IEDC, SOPT, PMOST, OBB, MLL, DPEP, EGS and AIE, KGBV)
- State projects assumptions, implementation strategies and impact (BEP, APEP, UPBEP, Lok Jumbhish, ABL, Nali Kali, Mahila Samakhya, Shiksha Karmi, AIEP, Learning Enhancement)
- Centrally sponsored schemes and state projects change it brought in elementary education
- Sarva Shiksha Abhiyan (SSA) –objectives, focus areas, implementation strategies and impact on quality enhancement
- Mid-Day Meal scheme (MDM) objectives, implementation and impact on quality enhancement

Unit-III: Curriculum, Pedagogy and Assessment in Elementary Education

- Principles of Curriculum development at Elementary Level
- Relevance. integration, flexibility, contextuality and plurality determinants of curriculum at elementary level
- Pedagogy relevant at the elementary level
- CCE at elementary stage
- School based assessment: Preparation of scheme and guidelines

Unit-IV: Inclusive Education at the Elementary level

- Concept need and importance of inclusive education
- Shift from segregated education and integrated education to inclusive education
- Recommendations of Education Commissions and Committees on restructuring policies and practices to respond to diversity in educational situations
- Challenges of bringing all children in the same school (with special reference to children with disabilities, children from weaker social, cultural and economical backgrounds)

Transactional Modalities:

- Lecture-cum-discussion, Panel discussion, Group Work, Library work, Activities, Projects, Collaborative Presentations
- School visits and sharing of experiences
- Seminar presentation by students on selected themes individually and collectively leading to discussion;
- Library readings on selected theme followed by group discussion;
- Study of documents and references, Reflective interaction with the peer group
- Workshops, assignments and group discussion around issues and concepts studies in theory
- Projects and assignments focusing on observation and interaction with children on specific theme

Sessional activities

- Prepare a status report on elementary education in a district with reference to access, enrolment, participation and learning achievement
- Observe and report on the implementation of any one of programme to improve quality in elementary education
- Read and discuss on the philosophy and practices of elementary education as advocated by different educationists

- Prepare a short write-up on "initiatives to bridge gender gap in elementary education" and discuss
- Conduct a survey on the opinion of elementary school teachers on the policy of 'inclusive education'
- Visit one or two elementary schools in the neighborhood to observe midday meal scheme / inclusive environment and prepare a report on its implementation and offer suggestions
- Read a report on midday meal scheme / study on the Supplemental Nutritional Assistance Programme (SNAP) of our country and on the National School Lunch Program of US /Read any research report or article on mid-day meal scheme
- Compare the National and International curriculum of elementary education and discuss
- Analyze the curriculum of any two States (It could be grade wise or subject wise) and discuss
- Compare the allocation of GDP in education that is elementary, secondary, tertiary and technical etc. and other developmental / service sectors like health, defense and railway
- Collect information from developed, developing and underdeveloped countries on the budget allocation to education (budget auditing)
- Collection, evidence-based practices, Case study on the sustainability of the any one of the programme
- Analysis of Annual Work Plan and Budget (AWP & B) of SSA any one State
- View films / videos on issues related to elementary education (Savitri Bai Phule, Lillee, India untouched, darker side of India, videos on talks of Abdul Kalam, Kailash Satyarthi, Malala and many other who speak for education)
- *** Sessional activates are only suggestive.

GUMED - CLS-SEC1: SECONDARY EDUCATION-I

Credits: 3 Max. Marks: 100
Examination Duration: 2 Hours Internal: 50
Contact hours per week: Lectures: 2+Tutorials: 1 External: 50

Rationale

The course intends to develop among the prospective teacher-educators a thorough understanding of secondary (includes senior secondary also) education as a specific stage of education with the perspective to lead into an area of specialisation. This course has a focus on orienting the students to the organisational structure, administration, policy and practice at the secondary stage of education. Along with the knowledge into the basic structure and function of secondary education, the course would guide them to critically analyse school practices, the programmes being implemented, make them aware of the leadership role of the central government, decentralisation of authority and financing, budget consumption and actions taken for the expansion and improvement of secondary education in the country. In addition, it would sensitise the students about major concerns, challenges and research in the area of secondary education. The intention is to blend the academic theory and sessional activities with the field experience of the student

Objectives

The course intends to:

- Develop philosophical, sociological and psychological perspective on Secondary Education
- Develop critical understanding about current status of Secondary education in India
- Understand policy perspectives in decentralization of administration and management of secondary and senior secondary education
- Understand organizational structure and functions of institutions in administration and management of Secondary education at various levels
- Analyze various secondary education curricula exist in India and review with a focus on its criticality
- Develop perspective of inclusive education

Unit-I: Planning, Policies and Administration

- Educational Policies after independence; Secondary Education Commission, Indian Education Commission, National Policies of Education, National Knowledge Commission (Focused discussion on major recommendation with special reference to Secondary Education)
- Secondary Education in 5-year Plans
- Policy perspectives in decentralization of administration and management of secondary and senior secondary education- Local Bodies, SDMC, PTA
- CABE Committee on Universalization of Secondary Education recommendations

Unit-II: Programmes and implementation strategies of Secondary Education

- Programmes and Strategies of Government of India implemented since independence to improve access, enrolment, retention and quality of Secondary education
- RMSA for achieving Universalization of Secondary Education programmes and strategies, its impact on quality enhancement
- Centrally sponsored schemes and state projects and programmes the changes it brought in secondary education

Unit-III: Curriculum Pedagogy and Evaluation in Secondary Education

Principles of curriculum development at Secondary Level

- National Curriculum Frameworks of Secondary Education, Common Core Curriculum incorporating work centred pedagogy.
- Relevance, integration, flexibility, contextuality and plurality determinants of curriculum at secondary level
- Pedagogical content knowledge for different subjects
- CCE and school-based evaluation at Secondary stage; Formative and summative evaluation; norm referenced and criterion reference evaluation

Unit IV: Inclusive Education at the secondary education

- Concept, need and importance of inclusive education at the secondary level
- Recommendations of Education Commissions and Committees on restructuring policies and practices to respond to diversity in educational situations
- Shift from segregated education and integrated education to inclusive education
- Challenges of bringing all children into secondary school

Transactional Modalities:

- Lecture-cum-discussion, Panel discussion, Group Work, Library work, Activities, Projects, Collaborative Presentations
- School visits and sharing of experiences
- Seminar presentation by students on selected themes individually and collectively leading to discussion;
- Library readings on selected theme followed by group discussion;
- Study of documents and references, Reflective interaction with the peer group
- Workshops, assignments and group discussion around issues and concepts studies in theory
- Projects and assignments focusing on observation and interaction with children on specific theme

Sessional activities

- Prepare a status report on Secondary education in a district with reference to access, enrolment, participation and learning achievement
- Observe and report on the implementation of any one of the programmes to improve secondary education
- Collection, evidence-based practices, Case study on the sustainability of the any one of the programmes of improving Secondary Education
- Analyze RMSA in the backdrop of CABE committee on USE
- Analyze secondary education curriculum of different Boards (NCERT, State, ICSE)
- Group work and presentation on innovative assessment technique
- Preparing a report on the existing status of the teachers, method of recruitment and salary structure
- Conducting a survey of secondary schools on the chosen area on the causes of under achievement and suggest measures to improve
- Visits of different types of secondary schools and preparation of school profiles
- Conduct interview with teachers/students/parents of different schools and prepare a report on problems of secondary education.
- Survey of educational needs of disadvantages/students with disabilities
- View films / videos on issues related to secondary education (Stand and deliver, India untouched, darker side of India, videos on talks of Abdul Kalam, and many other who speak for education)

^{*} The sessional activates are only suggestive. The Institutes may design suitable activities based on the units of the course. This may also be given as group work and discussions could be held during tutorial sessions

GUMED - TC1: SELF-DEVELOPMENT WORKSHOP

Credit: 1 Marks: 25 (Internal Assessment)

Duration: One Week Workshop

Rationale:

The aim of this tool course is to help students in developing understanding about themselves and developing their selves as a professional, through conscious ongoing reflection. The course will address aspects of development of the inner self and the professional identity of a teacher. This shall enable students to develop sensibilities, dispositions, and skills that will later help them in facilitating the personal growth of their own students while they teach. It is important for the students to develop sensitivity toward issues like gender biases, children with special needs (intellectual and physical), disadvantaged groups to make class inclusive. At the same time, they will develop problem-solving skills to deal with these issues.

During the course, regular physical education classes including practice of yoga and meditation will be organised to make students physically and mentally fit. Yoga and meditation also enhance abilities of body and mind, and promote sensibilities that help to live in peace and harmony with one's surroundings. Students will appreciate the philosophy of yoga and meditation, and will learn to use in different contexts.

The following methodologies for the transaction of the course could be used in interactive sessions:

- Students sharing their experiences in a group based on observation, case studies, field visits, readings, etc.
- Reflective discussions on a movie/documentary on relevant issues
- o Discussion on how to imbibe teacher qualities and nurture his/her self as a teacher
- Organization of activities for self-expression (exhibiting strengths and abilities)
- Providing feedback on their reflective journals/diaries
- Practicing yoga and meditation for physical and mental well-being

Note: The course would be transacted through workshop mode by more than one faculty members and/or external experts, wherever required.

Objectives:

- To enable the students, understand that the "development of self" is a resource to exercise their professionalism.
- To make them realize that one is responsible as a person and as a teacher for the integrated development of oneself and the learners: physical, cognitive, social, emotional, aesthetic, moral, and spiritual developments.
- To help them develop sensitivity towards social-cultural diversities crucial in making teaching—learning environment conductive/congenial to the learner.
- To demonstrate sensitivity with respect to gender biases and other social disparities in the classroom, and practice inclusiveness in the classroom. To help them in achieving mental and physical well-being

COURSE THEMES:

Theme 1: Understanding the Self

Theme 2: Self management in stressful/emotional (sad as well happy)/conflicting Situations

Theme 3: Developing 'Self 'as a professional (Teacher Educator)

MODE: WORKSHOP, GROUP DISCUSSION, FIELD VISITS

Activities under Theme 1: Understanding the Self

Objective

Objectives of the activities is to help students to develop cognitive skills such as

- Developing self awareness about one's abilities and opportunities to develop self independent thinking, critical thinking and creative thinking, decision making, problem solving and goal setting
- Developing objective view of beliefs, prejudices and stereotypes to liberate from irrational tendencies

Activities

- i. SWOT analysis an exercise to identify Strengths, Weaknesses, Opportunity and Threats
- ii. Analyze one's perception about self and others
- iii. "Who am I" Self concept
- iv. Inspirational Readings

Activities under Theme 2: Self-management in stressful/emotional (sad as well happy)/conflicting situations

Objective

Objective of this activity is to make student recognize the affective resources of self understanding to be understood both as assets such as feelings of love, joy, appreciation, affection, happiness, and threats or limiting factors such as emotions like fear, anger, jealousy etc. in their professionalism.

Activity

Following exercises may be organised in the workshop for inner observation for self-knowing while in stress or in emotions and to develop skills of self-management

- Identification of anyone of the above situations (stressful/emotional-sad as well happy/conflicting)
 by the students
- Reflect on it
- Share with the group on how it was managed/resolved

This activity will help students learn about various ways of managing/resolving critical situations in life. The focus may be the school context.

Activities under Theme 3: Developing 'Self 'as professional (Teacher Educator)

Self - Critical awareness about one's abilities and assets in different contexts of professional life and limitations in terms of knowledge, attitudes, skills and values which may be reviewed or developed while teaching different subjects (Science, Social Science, Mathematics, Languages etc.) or while dealing with other curricular components or classroom situations.

Objective

The objective of this activity is to develop awareness among students in following aspects of their professional endeavors

 Adequacy of subject matter knowledge, professional skills, and effective communication to the students.

- One's attitudes towards students, teaching, teaching material, interest in teaching subject and one's aptitude in developing interest in learning among students and in tapping their abilities to realize the values identified in the subject matter.
- Suitability of one's role being performed contextually to enrich learners' capabilities and guiding them for self-actualization while interacting.
- Involvement in teamwork with colleagues, head of the institution, parents of learners and management for holistic development of the learners.

Activity: Analysis and Self-reflection

The students will be asked to

- i. SWOT analysis an exercise to identify Strengths, Weaknesses, Opportunity and Threats as a teacher educator
- ii. Analyze one's perception about self and others as teacher educators in a group context

On the basis of the above the students will-

- Identify the characteristics, values, attitudes of the teacher and reflect upon self with respect to the same.
- Priorities the characteristics, values, attitudes of an effective teacher and will try to develop through practice in real life situation to become a professional.
- Reflect upon self and document the experiences.

Activities under Theme 4: Self and Social Responsibilities

This will help in the development of social responsibilities among the learners to enrich human resources and self-esteem; realistic understanding of any self as depending on the source of the whole existence for spiritual awakening free of any religious identity.

Objective

While conducting the group discussion the students will be able to develop

- Responsibility of self towards other human beings in the family, society, and other people, especially women and disadvantaged
- Critical awareness of the biases based on gender, caste, class, language, religion, nation, region etc.
- Critical understanding of the basic realities of the man-made divisions due to political, historical and social forces over the time-scale.
- Understanding of the basic realities of cultural differences across the time-scale and across the globe

Activities

- i. *Group discussion:* The focus of the discussion will be on an issue or event on the theme which is current and relevant.
 - The students will be informed about the topics of discussion in advance so that they share their views and experiences. The duration of discussion may be 2 hours.
- *ii. Gender Sensitization Training:* Students would engage in standard gender sensitization activities from any gender sensitization training programme.
- iii. **Field Visit:** Visits to the slums/migrant groups/institution or NGO's working with disadvantaged groups. Before field visit students need to be oriented (½ day) on what they are supposed to do in the field.

During the visits, the students will discuss pertinent issues with these groups and prepare report to discuss and share with other students. This will help students to experience their transformations in different contexts

Discussion/presentation in the groups may be kept in the beginning of Semester II.

Evaluation of Self-development:

During transaction of this course through workshop mode, student teachers will be asked to develop **PORTFOLIO** with response sheets/reflective notes/narratives/observations/ charts/posters/analysis sheets and other related documents. Students are required to submit Portfolio in the prescribed format with all evidences.

Note: The **PORTFOLIO** will be assessed by minimum two faculty members to award final marks. Rubrics will be developed with the help of faculty and students. The students and peers may also evaluate Portfolio.

GUMED -TC2: COMMUNICATION WORKSHOP

Credit: 1 Marks: 25 (Internal Assessment)

Duration: One Week Workshop

Rationale: This course is intended to enhance the ability of learners to listen, converse, speak, present, explain and exposit ideas in groups and before an audience. The course aims to create effective professionals by integrating various communication skills and through an exposure to various skills.

Objectives:

- To develop listening and viewing skills
- To improve the speaking skills
- To promote the reading skills
- To gain insight and reflect on the concept and process of communication.
- To familiarize with expository writing

Transaction Mode: This course will be transacted /facilitated through participatory approaches such asworkshop, seminar by students, and group work. Different workshops can be organized where tasks and activities can be organized. Some theoretical aspects can be presented through presentation-cum-discussion mode.

Listening / Viewing Skills

Workshop can be organized to provide exposure to listening and viewing skills. These can be conducted in the language Lab.

Suggested Activities:

Students can listen to -

- Patterns of stress and intonation
- Self-recording while practicing pronunciation
- Speeches of famous personalities

Students can View-

- Videos on sound production and articulation
- Poetry recitation videos
- Videos on conversation
- Videos on group discussions and can observe body language.
- Making listening notes
- Completing worksheets on listening tasks
- Developing criteria for analysis of listening skills
- Consulting pronunciation dictionaries
- Presentations

Speaking Skills

These skills can be practiced in seminar rooms/language lab.

Suggested activities:

Students can practice-

- Stress and intonation patterns
- Recitation of poems

Students can-

• Participate in conversations (Situations to be provided)

- Engage in group discussion on topics related to education, gender, inclusion, marginalization, culture, current issues at national and international level
- Analyze of speech styles
- Analyze of presentations
- Make presentations
- Involved in mock Interview

Reading Skills

Students can be familiarized with reading techniques – skimming, scanning, critical reading. They can be encouraged to go to libraries for activities suggested below.

Suggested activities:

Students can read

- Editorials in newspapers on a regular basis
- Articles in newspapers and magazines
- Research papers in journals
- Book reviews, film reviews and art reviews in newspapers and magazines
- E-books, online journals
- Subject related reference books

Students can be involved in-

- Note making tasks on reading and summarizing what is read.
- Discourse analysis (to be integrated with reading, speaking and writing skills

PURPOSE AND PROCESS OF COMMUNICATION

To understand the purpose and process of communication students can be involved in-

 Individual and group assignment on a chosen topic of communication and presenting using any ICT tool

Mode of Assessment: During transaction of this course through workshop mode, student teachers will be asked to develop **PORTFOLIO** with response sheets/reflective notes/narratives/observations/charts/posters/analysis sheets and other related documents. Students are required to submit Portfolio in the prescribed format with all evidences.

Note: The **PORTFOLIO** will be assessed by minimum two faculty members to award final marks. Rubrics will be developed with the help of faculty and students. The students and peers may also evaluate Portfolio.

SEMESTER II

GUMED - PC3: PSYCHOLOGY OF LEARNING AND DEVELOPMENT

Credits: 3 Max. Marks: 100
Examination Duration: 2 Hours Internal: 50
Contact hours per week: Lectures: 3 and Tutorials: 2 External: 50

Objectives: On completion of this course, the students will be able to

- Describe multiple dimensions of learner's development and its implications on learning;
- Reflect on the process of learning from the point of view of different theoretical; perspectives and the need to adopt appropriate approach;
- Understand the learner in terms of diversities and its implications on learning;
- Learn the factors affecting learner's environment and assessment;
- Discuss the strategies for effective management of learning;
- Conceptualize a framework for understanding and evaluating teaching-learning situation as well as the method of analyzing and reflecting upon learning episodes; and
- Conceptualize the needs of the learners and the process of learning

CONTENT

Unit I: Learner Development and Implication for Learning

- Human Development: Meaning and understanding various stages of development of the Learner childhood stage to late adolescence stage
- Factors influencing development of the Learner: Role of Heredity and Environment (Family; Community-Neighborhood, Peer group and School.
- Critical review of theoretical perspectives on different dimensions of development of Learner in relation to existing school practices: Cognitive (Piaget); Language (Chomsky); Emotional (Harry Harlow & John Bowlby); Psycho- Social (Erickson); Moral Reasoning (Kohlberg), Development of Self concept, self esteem.
- Unit II- Understanding the Process of Learning
- Learning Meaning and Types of Learning
- Cognition in Learning: Cognitive processes: *sensation, perception, attention, memory, development of concepts, logical reasoning,* critical thinking, and problem solving.
- Various theoretical perspectives on human learning: Behaviorist, (Skinner), Humanist (Roger),
 Cognitivist (Gagne, Ausubel, Bruner, Piaget), Constructivist (Piaget, Vygotsky).
- Critical appraisal of views of Ausubel, Piaget, Bruner and Vygotsky with reference to multiple school contexts of India.
- Role of motivation in learning: Meaning of motivation, various approaches to motivation (humanistic approach; cognitive approach,); Strategies for motivating learner Intrinsic and extrinsic motivation.

Unit III: Understanding differences in individual learners to facilitate learning

- Conceptual framework of understanding dimensions of differences in individual learners (with reference to individual attributes)
- Differences in learners based on predominant 'learning styles'

- Understanding differences based on cognitive abilities in children: such as giftedness, creativity, learning disability, low intellectual functioning (slow learner), and under achievement.
- Understanding and Management of Learners with Emotional and Behavioral Disorders: Attention deficit disorder with or without hyperactivity, Autism, Conduct disorder, Depression, Anxiety Disorders

Unit IV- Creating Conducive Learning Environment and Classroom Management

- Identifying learning needs through continuous and functional assessment during teaching learning process, self-assessment and feedback, teacher observation and their reflective discussion in a group
- Strategies to deal with diversity among learners.
- Role of Guidance and Counselling Services and School Mental health Programmes

Transaction Mode

- Lecture cum discussion
- Individual and group assignment through self-study in the library and presentation in a seminar
- Observation of learning situation in schools and out of the schools,
- preparing reflective diaries / journal
- interpretation, analysis and reflection on observation in a group
- interaction and discussion with classroom teachers and peer group
- observation followed by reflective discussion in a group
- Library study
- project work

Suggested Sessional work

- Conducting case study on one student who has difficulties in learning at Elementary stage.
- Reading Gardener's theory of Multiple intelligences: Implications for understanding differences in individual learners
- Engaging learner in the process of knowledge construction and observe how they use them out of the school experience and local knowledge during construction of knowledge. Prepare report and discuss in group presentation.
- Identification of group learning and self-learning strategies following constructivist approach and their field-testing.
- Identification of learning difficulties of the student in any subject area through administration of diagnostic test and development of remedial instruction.
- Identification of strategies for motivating the learner in study of a subject and practicing in school
- Analysis of a case of adolescent learner with maladjusted /deviant behavior.
- Preparation of learner's profile based on cognitive and non-cognitive characteristics in order to depict individual differences at elementary or secondary stage.
- Analysis of learning situations and presentation before a group followed by discussion.
- Critical analysis of learning situation in schools and out of the schools/preparing reflective diaries, interpretation, analysis, reflection on observation and finally presentation in a group.
- Assessment of Portfolio and Reflective Journal
- Suggest structures of classroom environment in which all students can learn.
- Design/suggest activities for developing critical consciousness about various social and political issues.

- Prepare a plan of activities for students of various levels of schooling which can be shared with the parents.
- Develop strategies on critical perspectives on socio-cultural realities

GUMED - TC3: RESEARCH METHODS IN EDUCATION

Credits: 3 Max. Marks: 100
Examination Duration: 2 Hours Internal: 50
Contact hours per week: Lectures: 2+Tutorials: 1 External: 50

Course Objectives

On completion of this course, the students will be able to:

- Understand the concept, characteristics and types of educational research and perspectives of research.
- Understand and appreciate the utility of literature search.
- Develop skill of identifying and formulate suitable research problem.
- Understand different kinds and methods of educational research.
- Compute the different measures of descriptive statistics.
- Identify issues related to sampling techniques, data organisation.

Unit I- Research in Education: Conceptual Issues

- Concept, nature, scope and types of research in education: Fundamental, Applied and Action Research and their characteristics.
- Research problem: Basis viz., conceptual basis, research base (based on review of research studies)
 and empirical basis (based on empirical evidences), and sources for research problem; characteristics
 of research problem.
- Variables: Constructs and concepts, meaning, nature and types.
- Components of a research proposal
 - Conceptual framework, need and importance.
 - Objectives, research questions, and hypotheses.
 - Sources of data and method.
 - Tools and techniques.
 - Sampling design.
 - Data analysis plan.

Unit II- Methods of Research

• Quantitative Research

- Research Designs: True experimental (Single group pre-test, post-test design; Two-group Experimental-Control group design; Solomon four-group design, Rotational group design; Factorial design), Quasi-experimental Designs
- Internal and External validity of the research designs

Qualitative Research

- Qualitative Research: Meaning, Nature, Characteristics, Scope and Relevance
- Types of Qualitative Research: Naturalistic Enquiry, Hermeneutics, Phenomenology Symbolic Interactionism, Grounded Theory, Ethnography, Case Study
- Qualitative Research Design

Unit III- Sampling Design and Methods of Collecting Data

- Concept of population and sample.
- Concept of sampling unit, representativeness of a sample, sampling frame. Deciding the size of sample in quantitative research. Sampling error, non-sampling error.
- Sampling methods: meaning, nature, conditions and applicability of Probability Sampling (Simple Random Sampling, Stratified Random Sampling, Systematic Sampling, Multi-Stage Sampling) and Non-Probability Sampling (Cluster Sampling, incidental Sampling, Purposive Sampling and judgmental sampling, snowball sampling, etc).
- Tools and Techniques: Interview, Questionnaire, Checklist, Psychological Tests, Achievement Tests and Diagnostic Tests, Observation, Recording (Audio and Video), Anecdotal records, portfolios, Dialogue, discourse, documents. Process of standardisation of tools

• Standardisation of Tools:

- Reliability: Meaning, types, and procedure of establishing reliability for various tools listed above.
- Validity: Meaning, types, and procedure of establishing validity for various tools (listed above).
- Items Analysis: Difficulty value of test item; Discriminative Index and Facility Value; finalisation of items (standardisation of various tools)

Unit IV- Data Analysis and Interpretation

- Nature of data procured: Qualitative and Quantitative.
- Qualitative data analysis and Quantitative data analysis.
- Understanding data in terms of scales of measurement, data size, classification and categorization of data, relating data to research questions/ hypotheses.
- Scope for qualitative and quantitative analysis.
- Preparing the data for analysis using computer software.
- Basic Descriptive Statistical Treatment for data analysis
 - Processing data in tabular and graphical representation (Bar diagram, Line diagram, Histogram, Frequency curve, Frequency polygon, Ogive).
 - o Basic concepts: Measures of Central tendencies and Dispersion.
 - Relative Positions Percentiles and Percentile Ranks.
 - Correlation, Product Moment Correlation; Rank Correlation, Biserial Correlation, Point Biserial Correlation, Tetrachoric, Phi Correlation and coefficient of contingency.
 - Concept of Multiple and Partial Correlation and Linear Regression (Bivariate only)
 - Use of software for analysis of data.

Transaction Mode:

Lecture-cum-Discussion, Brain Storming, Group Discussion, Presentations, Panel discussion, Seminar presentations, research exercises

Sessional Activities:

The students will undertake the following activities:

- Development of a Research Proposal on an identified research problem.
- Critical analysis of standardized research tools based on its preparation and validation.

- Identification of variables of a research study and classification of them based on types and level of measurement.
- Planning a study based on a research design by keeping the objectives and research questions /hypotheses of a research study.
- Preparation of trend report based on the review of research studies in a particular area.
- Critical analysis of a research report/thesis.

EDUCATIONAL MANAGEMENT, ADMINISTRATION AND LEADERSHIP GUMED – TS - EMAL1: EDUCATIONAL ADMINISTRATION AND MANAGEMENT

Credits: 3 Max. Marks: 100
Examination Duration: 2 Hours Internal: 50
Contact hours per week: Lectures: 2+Tutorials: 1 External: 50

RATIONALE

The course intends to familiarize the prospective teacher-educators with the concept, purpose, principles and approaches of educational administration and management studies in elementary and secondary education. It would guide them to explore the structure and practices of school administration and management at elementary and secondary level. It proposes to make them aware and sensitize with the contemporary issues and the current trends of research in administration and management in elementary and secondary education. The study of the paper would help them to understand the role and functions of different bodies/structures for administration and management of elementary and secondary education at national, state, district, cluster and block levels. Approaches and process of administration and management of elementary and secondary education will be studied in terms of its strategies and components. Different functions of school management at elementary and secondary level will be analysed to develop critical understanding of these functions and their impact on smooth execution of the system. The unit of contemporary issues in administration and management in elementary and secondary education would equip the prospective teacher-educators with necessary knowledge and skills to deal with these challenges in a systematic and innovative way.

Objectives:

After completing the paper, teacher-educators will be able:

- To develop understanding about developmental process of educational administration and management.
- To understand the basic concepts and process of educational administration and management.
- To develop an understanding about the role of different agencies in educational administration and management.
- To become conversant with the different sub-structures operating within the educational system and their interrelationships.
- To develop understanding of trends in educational administration in India
- Critically examine the present administrative/managerial practice and the issues related.
- To acquaint the learner with the challenges and opportunities emerging in the management.
- To develop competencies to use concept of management in areas of educational system

COURSE CONTENT

Unit I: Meaning, scope and process of educational administration.

- Meaning and scope of educational administration.
- Importance, functions and theories of educational administration.
- Process of educational administration (Purposing, Planning, Organizing, Operating direction, coordination and control and evaluating)
- Conceptual difference: (a) Educational Organization (b) Educational administration (c) Educational management.
- Stages of Educational administration Centralization and Decentralization

Unit II: Developmental Process of Educational Administration

- Development of Modern Concept of Educational Administration from 1900 to Present day;
 The Period between 1900-1935, The Period between 1935-1950, The Period between1950 and onwards
- Specific trends in Educational Administration;
 - (a) Decision making,
 - (b) Organizational climate
 - (c) Organizational change
 - (d) Organizational Compliance,
 - (e) Organizational Development,

Unit III: Educational Management concept and process

- Management concept and Need of Management, Characteristics of good Management.
- Management at different levels-Elementary, Secondary and Higher Education,
- Role of the following agencies in effective institutional management, (a)School Management Committee, (b) Teachers, (c) Parents/Guardians
- Emerging substructures: implications for management: Open School System, Open University system, Navodaya Vidyalayas, KVS, KGBV and others.
- Structural positions and expected roles of special agencies in Indian education: MHRD, UGC, CABE, NCERT, NUEPA, ICSSR, NCTE, Local Bodies and Private Agencies etc.

Unit IV Application of Management concept in Academic areas of the educational systems-

- Curriculum development /Evaluation
- Teaching Learning Processes
- Evaluation/Assessment (Management, Teacher, student, Parents/Guardians)- Self Appraisal.
- Time Management.

TRANSACTIONAL MODE

The course would be transacted through participatory approaches including lecture cum discussion, brainstorming, group discussion, case studies, group and individual field-based project and assignments followed by seminar presentation, workshop on field-based topics of study, panel discussion, survey, ICT lab work, role play, field visits and narration etc.

Sessional work:

The teacher-educators may undertake any one of the following activities:

- A study of the functioning and contribution towards school development /SMC/PTA/MTA (Any one).
- Preparing a report on review of research articles related to the contemporary issues in administration and management in education
- Explore the community resources a school is utilizing for various purposes.

- On the basis of your experience an interaction in the school/teacher training institution.
- Critically analyze the plan and implementation in any government school I under SSA/RMSA/SDP.

GUMED – TS - CPA1: FOUNDATIONS, THEORIES AND MODELS OF CURRICULUM

Credits: 3 Max. Marks: 100
Examination Duration: 2 Hours Internal: 50
Contact hours per week: Lectures: 2+Tutorials: 1 External: 50

OBJECTIVES:

On completion of this course, the students will be able to

- Analyze the different perspectives of curriculum
- Understand the foundations of curriculum development.
- Compare and analyse the National curriculum frameworks over the years with respect to their foundational considerations, concerns, priorities and goals.
- Understand the various models and the theories of curriculum development and analyse their relevance to Indian context of school education
- Analyze the curriculum frameworks of various other countries with that of National curriculum frameworks of India.

Unit I: Perspectives on curriculum

- Perspectives on curriculum
 - Traditionalists
 - Conceptual-Empiricists
 - Social constructivists
- Concept of integrated curriculum, interdisciplinary, Standard based, and Issue based curriculum and their significance
- Humanistic curriculum: characteristics, psychological basis, purpose, role of teacher.
- Social Deconstructionist curriculum: characteristics, purpose, Role of a teacher

Unit II: Foundations of curriculum

Historical, philosophical (some philosophical systems, structure of knowledge and Discipline; forms of knowledge and Disciplines), national concerns and goals, globalization, localization and

privatization, political ideology and technological influences, economic necessities, gender differences, inclusiveness, value concerns and issues, social sensitivity; : Behavioristic, cognitivist and social learning (and their relevance to curriculum development).

Unit III: Curriculum theories and models of curriculum development

- Study of important Curriculum theories and their significance to curriculum planning
- Curriculum models: The AIM model, Taba 's Inverted model, Tyler's Ends-Means model, Oliva model, Saylor-Alexander Model, Macdonald's model. Zais Eclectic model, Cornett's personal practical theories model;

Unit IV: Curriculum Concerns-global and Nation wide

- Analysis of National curriculum framework documents with respect to various aspects of foundations, concerns, and the changes made with important considerations.
- Comparative study and analysis of curricular frameworks of other countries- US, UK, Finland, Australia etc. (with respect to their priorities, concerns and goals towards school education).

- Sessional activities
- Study the Focus groups 'Position papers to understand the background discussion that led to the present National curriculum framework 2005.and presentation of papers theme wise.
- Preparation and presentation of papers on comparative study of National curriculum framework of other countries at different levels (US, UK, Australia, Finland and others if possible).
- Study of National Policies of Education –1986, 1992(modified version) and POA on NPE-1996 in relation to National curriculum frameworks that were developed later.

EDUCATIONAL TECHNOLOGY AND ICT

Note:

- The trainees could be asked to take up various online ICT programmes already available through CIET, UNESCO and other agencies related to the courses content in various units. This will give more time for the teacher educators to provide hands on experiences and discussions
- All the three courses could be made available to the learners as e-learning course through LMS like Moodle. This would also give ample opportunity for the trainees to experience e-learning and econtent design
- 3. The expectation is that the emphasis will be given to FOSS tools for e-content creation and e-learning. This is expected to ensure access and sustainability. Some of the FOSS tools are mentioned in the syllabus. However new tools are developed more frequently than ever and therefore the educators are expected to explore these tools and integrate that in to the course content.

4. The course content is expected to be covered through practical hands-on activities, background reading, and group discussion and the lectures need to be limited to the minimum.

GUMED - TS - ETICT1: FOUNDATIONS OF EDUCATIONAL TECHNOLOGY

Credits: 3 Max. Marks: 100
Examination Duration: 2 Hours Internal: 50
Contact hours per week: Lectures: 2+Tutorials: 1 External: 50

Objectives

- 1. Differentiate various terminologies associated with educational technology
- 2. Appreciate the emergence and evolution of various educational media
- 3. Explain various approaches to educational technology
- 4. Describe the integration of technology for pedagogy, assessment, administration and CPD
- 5. Analyse and apply principles and practices associated with technology enhanced learning
- 6. Critically evaluate ICT related policies and plans
- 7. Assess various problems and issues related to information and communication technologies and its integration in education

Unit I: Historical and Conceptual Basis

- Meaning and nature of
 - Educational technology
 - Instructional technology
 - Information and communication technology
- Emergence of educational technology as a discipline
- Definitions, scope, functions/objectives of educational technology
- Approaches to educational technology:
 - Physical science (media approach)
 - Communication (audio visual approach) development of communication theory, communication models, mass communication, convergence of communication and educational technology
 - Cybernetics (system approach) origin of system concept, characteristics and stages of instructional system, general and instructional system theory
 - Behavioral science (behaviorist approach) taxonomic and performance approach to objectives, mastery learning, programmed instruction and teaching machines, individualized approach to instruction – keller plan & IPI, Computer assisted instruction
 - o Instructional design approach task analysis, instructional design theories gagne, bruner, constructivist approach, discovery, inquiry

Unit II Evolution of Educational Media

 Emergence and evolution of educational radio, Trends in educational radio – FM, community radio, internet radio and podcast

- Emergence and evolution of educational television –educational TV, instructional TV, CCTV, IPTV, LCD TV, LED TV, 3D and HDTV, UHD
- Emergence and evolution of projected aids hand made slide projector, photographic slide projector, film projector, epidiascope, OHP, multimedia projector, document projector, lead diode/pico projector
- Emergence and evolution of storage media-text book, magnetic tape, floppy disc, CDROM, DVD, Hard disk, Optical drives, cloud storage
- Emergence and evolution of transmission technology Face to face, co-axial cable distribution, optical fibre, satellite, infrared, Bluetooth, internet, Wi-Fi, 3g, 4g
- Emergence and evolution of communication Face to face, letter, telegrams, telephones, mobiles phones, e-mail, Instant messaging, chat, online conference

Unit III: Integration of Technology in Education

- Characteristics of digital learners
- Need and importance of digital Literacy
- Relationship between technology, culture and learning
- Technology and pedagogy
 - Techno pedagogical content knowledge (TPCK)
 - Approaches and strategies to integrating ICT in teaching and learning
 - ICT and Universal design for Learning (UDL)-multiple means of providing learning experience, multi means of representing learning, multiple means of engaging learners
- Technology and assessment
 - o Electronic assessment portfolio concept, types, e-portfolio tools -Mahara
 - o Technology assisted continuous assessment: role of LMS
 - Online and offline assessment tools rubrics, survey tools, puzzle makers, test generators, reflective journal, question bank
- Technology for administration and CPD
 - ICT for personal management: email, task, events, diary, networking
 - ICT for educational administration: scheduling, record keeping, student information, electronic grade book, connecting with parents and community
 - Action research and design-based research in technology integration and its implications for professional development

Unit IV: Technology Integration: Policies, Promises, Problems and Trends

- Promising Trends
 - increased online access and connectivity
 - mobile access- ubiquitous computing
 - Free and Open-Source Software (FOSS)
 - Convergence of Hardware and software
 - Digital assistive technology
- Problems
 - Equity issues and the digital divide
 - Limitations of technology integration: A critical look at the impact of technology integration
 - Technology dependence and learner autonomy
- Current and Future Trends
 - Learning analytics and education
 - Digital badging and games
 - BYOD and digital citizenship

• 3D printing and its educational application

Sessional Work

- 1. Perform content analysis and task analysis of any topic at school level
- 2. Write instructional objectives for any topic based on performance approaches to objectives
- 3. Comparative analysis of the contributions of Piaget, Bruner, Gagne, and Ausubel to learning and instruction
- 4. Write an essay on emergence and evolution of radio/display boards/projected aids/video and TV/storage media
- 5. Develop a lesson based using UDL approach
- 6. Create an assessment portfolio using offline/online tool
- 7. Develop an online test for any topic using Rogo online tool
- 8. Create account in online teacher collaboration site and take part in the activities and submit a report
- 9. Develop a technology integration plan for administrative task and personal management
- 10. Review of national ICT curriculum
- 11. Essay on social, ethical, and security issues related to ICT

Inclusive Education

GUMED – TS - IE1: UNDERSTANDING AND DEVELOPMENT OF INCLUSIVE EDUCATION

Credits: 3 Max. Marks: 100
Examination Duration: 2 Hours Internal: 50
Contact hours per week: Lectures: 2Tutorials: 1 External: 50

Objectives:

On completion of this course the students will be able to:

- understand the concept and meaning of Inclusive Education,
- understand different perspectives of inclusive education,
- know about the key legislations and policies for inclusive education,
- aware of the range and focus of literature in the field,
- develop critical understanding of the recommendations of various commissions, policies, schemes and committees towards teacher preparation for inclusive education,
- understand the nature of difficulties encounter and prepare conducive teaching learning environment in inclusive schools,
- understand the global and national commitments towards the education of learners with diverse needs,
- utilizing existing support services for promoting inclusive practice,
- seek parental, community and NGO support for utilizing available resources for education in inclusive settings.

Unit I: Introduction to Inclusive Education

- Concept of Inclusive Education
- Need and Importance Inclusive Education
- Scope of Inclusive Education
- Segregation to Inclusion, Education for All Movement
- Different Perspectives of Inclusive Education: Historical, Psychological and Sociological perspectives of inclusive education
- Diversity in the Classroom socio-cultural differences, gender, language, ability
- Learning styles in a classroom

Unit II Initiatives taken in the direction of Inclusive education

- At the International level
 - The Universal Declaration of Human Rights (1948), The UN Convention on the Rights of the Child (CRC), International Year / decade of the Disabled Persons (IYDP, 1981), The World Declaration on Education for All and its Framework for Action to meet Basic- Learning Needs, (1990), Salamanca Statement and Framework for action on Special Needs Education (UNESCO)1994)
- National level
 - The Indian Education Commission (1964-66). Integrated Education for Disabled Children (IEDC, 1974), National Policy on Education 1986 (POA, 1992). Rehabilitation Council of India Act, 1992, The Persons with Disabilities (Equal Opportunities, Protection of Rights and Full Participation) Act 1995, The National Trust for the Welfare of Persons with Autism, Cerebral Palsy, Mental Retardation and Multiple Disabilities Act 1999, Sarva Shiksha Abhiyan, RMSA, National Curriculum Framework, 2005, IEDSS-2009, RTE-2009, Right to Persons with Disability Bill 2012 /2014).

Unit III: Creating and Sustaining Inclusive Practices

- Factors for Successful Inclusion
- Preparation for Inclusive Education
- Building learning friendly classrooms
- Role of teachers, parents and other community members for supporting inclusion of children with diverse needs

Unit IV: Supportive Services for Inclusion

- Concept, importance and types of supportive services (medical, rehabilitative and educational)
- Role of teacher educators in utilizing support services for inclusion (academic supports, resource Room support, support of special schools and special teachers, family and community participation, guidance and counselling, NGO collaboration)

Transactional Mode:

Lecture cum Discussion, group work, ICT- power-point presentation, use of internet etc, and field visit to get first hand exercise on inclusive practices.

Sessional Work:

The students will undertake any one of the following activities:

- o Preparation of status report on school education of learners with diverse needs.
- o Evaluation of text books from the perspective of learners with diverse needs.
- Field visit to school/ institutions promoting inclusive practices and discussion with teachers and observation and analysis of teaching learning practices.
- o Critical review of policy, practice, and panel discussion by a group of students.
- o Critical analysis of NCF 2005 / NCFTE-2009 for planning quality teacher preparation programme.
- Conduct a survey on the type of supportive service needed for inclusion of children with any disability of your choice and share the findings in the class.
- o Visit to special/integrated / inclusive classrooms and prepare a comprehensive report
- Visit to a NGO working in the education of LwDNs and prepare a comprehensive report on their contributions and activities.

Programme Planning, Implementation, Monitoring and Evaluation GUMED – TS - PPIME1: PLANNING EDUCATIONAL PROGRAMMES

Credits: 3 Max. Marks: 100 Examination Duration: 2 Hours Internal: 50 External: 50

Objectives:

On completion of this course, the students will be able to:

- Revisit and gain insight in to the concept of educational programme and educational planning
- Understand the process of planning a programme.
- Develop a comparative understanding of different models of planning
- Critically examine the factors influencing educational planning.
- Understand and appreciate the importance of planning in an educational programme.

Course Content

Unit 1: Educational Programme Planning: Meaning and Types

- Educational programme: meaning
- Different types of programmes
 - Direct service interventions, Community mobilization efforts, Research initiatives, Surveillance systems, Infrastructure building projects, Training programs, Administrative systems
- Nature and scope of planning an educational programme
- Factors affecting planning of an educational programme
 - Consideration of cost
 - Consideration of technological factors
 - Availability of associated support materials
 - Simplicity of implementation
 - Innovation system congruence

Unit 2: Steps in planning an educational programme I:

- Establishing a programme planning team
- Need Analysis: Formal and Informal Approaches
 - What is a Needs Assessment?
 - Why is Needs Assessment Important to Project Design and Implementation?
 - Planning a Needs Assessment.
- Resource and Capability Analysis

Unit 3: Steps in planning an educational programme II:

- Develop a logic model
 - Outcome analysis and statement of objectives
 - Input-output analysis
 - Designing the activities
- Financial Analysis and Budgeting
- Establish program format and delivery system

Unit 4: Program Planning Models – their merits and demerits

- top-down and bottom-up approach to planning
- Building responsibility leadership in implementation
- Issues and concerns in planning an educational programme
- Developing a strategic plan Developing Vision and Mission Statements, Creating Objectives,
 Developing Successful Strategies, Developing an Action Plan, Obtaining Feedback from Constituents, Identifying Action Steps

Sessional Work

- Study of the Annual Reports of SCERT/GU/NCERT/NUEPA to identify the planning process involved in a programme pertaining to elementary/secondary level.
- Select any one current practice in elementary/secondary teacher education and trace the background of its formulation.
- Develop the programme logic for a selected programme at elementary/secondary level

GUMED - TS-GC1: GUIDANCE IN SCHOOL AND CAREER GUIDANCE

Credits: 3 Max. Marks: 100
Examination Duration: 2 Hours Internal: 50
Contact hours per week: Lectures: 2 and Tutorials: 1 External: 50

Objectives

On completion of this course the students will be able to:

- Appreciate the need for guidance and understand its meaning, nature and scope
- Understand the essential services involved in the guidance programme
- understand the concept and theories of career development and their utility in understanding Career Behavior of students,
- Understand the resources required and their optimum use in managing a school guidance programme
- acquire knowledge and skills of collecting, compiling and disseminating career information,
- · Become aware of the constitution, role and function of the school guidance committee
- Gain first-hand experience of carrying out the different guidance and Counselling activities such as group guidance, and career guidance.
- knowledge the sources of career information and variety of forms of in which the career information
 is available from different sources with its merits and limitations and ability to examine and appraise
 the information for intelligent use.

Unit I: Guidance in the Context of a School

- Guidance: need, scope and types; techniques of group guidance
- Types of guidance services: Orientation, Information, Individual Inventory, Counselling, Placement, Follow-up, and Research & Evaluation
- Planning and organization of Guidance programmes in schools Activities and Resources
- School guidance committee: constitution, roles and functions

Unit II: Understanding Career Development

- Concept of Work: physical, psychological and sociological; work as a way of life; Work and human motives
- Career development needs of students at different stages of education, Career development process
- Factors affecting career development
- Theories of career development (basic concepts, applicability and limitations of each theory)
 - Trait Factor Theory
 - Roe's theory of personality development and career choice

Unit III: Understanding and Dissemination of Career Information

- Importance of career information; dimensions of career information: nature of work, working conditions, entry requirements, earning, growth opportunities etc.
- Primary and secondary sources of information; Filing of career information
- Dissemination of career information: Group techniques-objectives, advantages and limitations.
- Group activities: career talks, career conference/exhibition, displays, field trips, film shows etc.

Unit IV: Career Patterns, Career Adjustment and Career Maturity

• Concept of career pattern, career awareness, career exploration and career preparation.

- Career pattern of men and women and implications for counselling.
- Concept of career adjustment and career maturity
- Factors affecting career maturity; assessment of career maturity

Sessional Work:

I. Individual Work

Each student will undertake the following activities:

- Conduct a survey of the problems that are most prevalent in three schools, which need immediate attention of a guidance counsellor and prepare a brief report.
- Prepare class talk and career talk on assigned topics.

II. Group Work

Students in group will undertake the following activities and present in discussion sessions:

- Develop a school guidance plan with calendar of activities and resources.
- Plan career information activities for primary, upper primary, secondary and higher secondary school stages.
- Develop occupational information file suitable for class X and XII students.

EDUCATIONAL MANAGEMENT, ADMINISTRATION AND LEADERSHIP

GUMED - TS - EMAL2: EDUCATIONAL PLANNING

Credits: 3 Max. Marks: 100
Examination Duration: 2 Hours Internal: 50
Contact hours per week: Lectures: 2+Tutorials: 1 External: 50

RATIONALE

The course intends to familiarize the prospective teacher-educators with the concept, purpose, principles and approaches of Planning in elementary and secondary education. It would guide them to explore the structure and practices of school planning at elementary and secondary level. It proposes to make them aware and sensitize with the contemporary issues and the current trends of research in Planning in elementary and secondary education. The study of the paper would help them to conceptualize the role and functions of different bodies/structures for Planning of elementary and secondary education at national, state, district, cluster and block levels. Approaches and process of Planning of elementary and secondary education will be studied in terms of its strategies and components and mapping exercises. Different functions of school planning at elementary and secondary level will be analyzed to develop critical understanding of functions and their impact on smooth execution of the system. The unit of contemporary issues in Planning elementary and secondary education would equip the prospective teacher-educators with necessary knowledge and skills to deal with these challenges in a systematic and innovative way.

Objectives

After completing the paper teacher-educators will be able:

- To acquaint the teacher-educators with the concepts, nature, principles, procedures and approaches of Educational Planning.
- To keep them precisely informed about the educational planning in India.
- To develop the skills in planning and using a variety of administrative strategies.
- To understand kinds and organization of planning
- To understand critical process of macro-planning and micro-planning and management techniques.
- To explain the role and contribution of different agencies in educational planning.
- To plan for an organization using different principles and models

Course Outline

Unit I: Educational Planning

- Concept and Nature of Educational Planning
- The Need and Importance of Educational Planning
- Approaches to Educational Planning;
 - Social Demand Approach,
 - Manpower Approach,
- Kinds and problems of Planning
 - Strategic Planning, Short term planning, Management Planning, Area planning, Institutional Planning, Micro and Macro Planning, Grass root level Planning, Rolling Plan
 - Problems of Planning;
 - o Internal and External

Unit II: Administration and Organization of Planning.

- Administrative Machinery: (a) National (b) State level (c) District level (d) Block level and (e) Institutional level.
- The Planning Process and Procedure.
- Factors influencing in determination of priorities in Planning.
- Need-based Data for Educational Planning.

Unit III: Educational Planning and Financing in India

- Educational Planning in India;
 - National Development Council, Planning Commission and State Planning Boards, Five Year Plans in India Perspective Planning, Factors Influencing Educational Allocations
- Educational Resources of Funds;
 Public Funds, Local Bodies Funds, Private Funds
- Principles of Educational Finance

Unit-IV Principals and Models of Planning

- Principals of modern educational planning.
- Characteristics of educational planning.
- Intra-Educational Extrapolation Model
- Demographic Projection Model

TRANSACTIONAL MODE

The course would be transacted through participatory approaches including lecture cum discussion, brainstorming, group discussion, case studies, group and individual field-based project and assignments followed by seminar presentation, workshop on field-based topics of study, panel discussion, survey, ICT lab work, role play, field visits and narration etc.

Sessional work:

The teacher-educators may undertake any one of the following activities:

- Prepare an organogram of structure and functions of the institutions in administration and management of elementary and secondary education at state, district, cluster and block levels for two states.
- Prepare a plan for procurement, utilization and maintenance of resources in education.
- Prepare formats for performance appraisal of elementary and secondary schoolteachers and administering them in simulated condition.
- Prepare an organ graph for management of an elementary/secondary school/project/programme/scheme through scientific approaches like SWOT/ PERT/ CPM/ PPBS/ system approach.
- Design the Blue Print of annual calendar and timetable for school.
- Prepare the plan of action to organize co-curricular activities.
- Prepare the Budget Plan for an Institute

CURRICULUM, PEDAGOGY AND ASSESSMENT

GUMED - TS - CPA2: LEARNING AND PEDAGOGY OF SCHOOL SUBJECTS

Credits: 3 Max. Marks: 100
Examination Duration: 2 Hours Internal: 50
Contact hours per week: Lectures: 2+Tutorials: 1 External: 50

Objectives

On completion of this course, the students will be able to

- Understand the need for curriculum development.
- Analyze the issues of different kinds involved in curriculum development
- Understand different approaches to curriculum transaction
- Understand the relationship between curriculum, pedagogy and assessment
- Develop pedagogical plans using constructivists approaches and principles
- Develop contextualized and alternative assessment tools and techniques and use them in the school context.
- Analyze the issues and concerns involved in curriculum transaction, pedagogy and assessment

Unit. I: Curriculum Development & transaction: Approaches, Materials, Media and Communication

- Approaches to curriculum development: Behaviouristic and Constructivistic orientations to curriculum development; systems approach
- Review of principles involved in curriculum development
- Problems in content and learning experiences selection
- Meaning of curriculum transaction
- Minimum requirement for transaction of curriculum (Duration, intake, eligibility, content, qualification of teaching staff, non teaching staff, infrastructure facilities, institutional facilities, climate)

Unit II: Approaches for curriculum transaction, Pedagogy, and Assessment

- Constructivist approach to curriculum transaction: situated learning, cognitive apprenticeship, social mediation, negotiation and scaffolding-different types;
- Use of constructivists learning designs; creating various learning situations and contexts, inquiry based; investigatory and social inquiry approaches; discovery, discussions, explorative field based activities, experiential learning, learning episodes, concept learning, inductive and deductive, concept mapping; reflective learning; self learning strategies; group learning; learning through projects and activities; use of standards and unit questions

- Transaction of critical issues social sensitivity, environmental concerns, gender concerns, attitudes, values, creating scope of critical thinking (strategies used)
- Support system and facilities for curriculum implementation:
 Role of school administration and organisation in implementation process; Role of a teacher in operationalizing the curriculum; Transacting the curriculum into syllabus and teaching learning units; Teacher as a researcher and curriculum practitioner; Infrastructure and learning resources.
- Materials/ media and communication for curriculum transaction and their integration
 - Learner centered textbooks and transacting curriculum beyond textbooks
 - Curricular materials: Textbooks, presentation of content, language, illustrations, episodes, stories and practical exercise etc.; Teacher's guide: its role in transaction
 - o ICT in transaction of curriculum, various modes of ICT (PLM, CAL, CAI); its importance and role

Unit III: Learning Assessment:

- Meaning of assessment in Behavioristic and constructivist context; Assessment for learning, of learning and as learning; concept of authentic assessment; Alternative assessment modes
- Trends in learning assessment
- Relationship between curriculum, pedagogy and assessment:
- role of assessment in realizing the curricular objectives; use of assessment results as feedback in improving learners performance, teaching performance, , resources and learning environment; as a feedback to curriculum improvement/revision

Unit IV: Issues in Curriculum Development, Pedagogy and Assessment

- Centralized vs. Decentralized curriculum
- Common curriculum- issues involved.
- Curriculum for disadvantaged groups (tribal children, disabled etc.) concerns and issues.
- Problem related to curriculum load
- Problems related to lack of infrastructure, resources, and pedagogical competencies of teachers
- Issues and concerns related to learning assessment (CCE; school-based assessment; Board Examination; quality of question papers; improper assessment practices etc)

Sessional activities

- Comparative study of different curriculum models and seminar presentation.
- Preparation of lesson plan based on constructivists learning designs in different school subjects –
 Science, Social Science, Language, and Mathematics
- Develop a chapter for a Textbook in any subject area following the guidelines of textbook development.
- Prepare any one of the alternative assessment tools to assess learners' performance in any of school subjects or in any one of co-curricular areas.

EDUCATIONAL TECHNOLOGY AND ICT GUMED – TS - ETICT2: E-CONTENT: DESIGN AND DEVELOPMENT

Credits: 3 Max. Marks: 100
Examination Duration: 2 Hours Internal: 50
Contact hours per week: Lectures: 2+Tutorials: 1 External: 50

Objectives

- 1. Examines the relationships between learning theories and digital technologies
- 2. Explain the principles of instructional design and identify the salient features of different instructional design models
- 3. Explain the process involved in designing and developing e-content for digital learning
- 4. Systematically design and critically evaluate a digital learning resources on a topic of their choice
- 5. Use different online and offline tools for creating e-content
- 6. Explore and evaluate various digital resources for enhancing learning
- 7. Learn to analyze learning situations and identify associated technology-related design challenges.

8. Develop skills in the design of educational media, and the integration of design thinking with scholarship in education.

Unit I: Learning Theories and Instructional/Learning Design

- Instructional Design: Meaning and Need
- Implications Learning theories for Instructional design
 - o Behavioural Learning Theories
 - Social Learning Theories
 - Cognitive and constructivist Learning Theories
- Theory of multiple intelligences and its implications for instructional design
- Types of Learning and learning styles

Unit II: Instructional/Learning Design: Models and Process

- Instructional Design Models
 - o ADDIE Model
 - ASSURE Model
 - ARCS Model
- Instructional Design Process
 - Analysis- need, target, task, and topic/content
 - Design- define objectives, sequencing, instructional methods, delivery strategies, evaluation strategies
 - Develop- content, story board, courseware, authoring tools and interactivity, and interface
 - o Implement installation, deliver and distribution, managing learner activities
 - o Evaluation purpose, models of evaluation, evaluating reaction, learning, behaviour, result

Unit III: E-content Tools

- Open source versus proprietary tools
- Audio tools (Audacity) for creating, editing, and sharing
- Video (openshot/avidmux)tools for creating, editing and sharing
- Screen casting tools (camtasia) for creating screen casting presentations
- Graphic editing
 - o Timeline (timeline) for creating time lines
 - Picture/photographs (GIMP/Mypaint)
 - Concept map (freemind, VUE)
- Animation -2d animation (Pencil, Tupi)
- Authoring tools (eXe Learning, Xerte) putting together e-content with interactivity
- E-book tools (sigil, calibre) for creating and editing e-books

Unit IV: E-resources

- Reusable Learning Objects (RLO): meaning, characteristics and need. RLO repositories
- Open Educational Resources (OER): meaning, need and importance, sources of OER, adoption, adaption –openness, relevance, and accessibility
- Searching OER-tools and techniques
- Intellectual property right and creative common license, OER policy
- Open textbooks: meaning and features
- OER graphics, videos, audio/music, courses, etc. and its sources
- Evaluating e-resources- criteria

Sessional Work

- 1. Review the contributions of behavioural, social, cognitive, and constructivist learning theories for instructional design
- 2. Review of any three instruction design models
- 3. Develop story board for any topic of your choice
- 4. Create and edit an e-book using sigil software
- 5. Create a timeline on any topic using timetoast/timeline tool
- 6. Create an online and offline concept map on any topic
- 7. Creation of an RLO on any topic
- 8. Review of OER materials related to school/teacher education

INCLUSIVE EDUCATION GUMED – TS - IE2: ADDRESSING THE DIVERSE NEEDS IN INCLUSIVE SETTING

Credits: 3 Max. Marks: 100
Examination Duration: 2 Hours Internal: 50
Contact hours per week: Lectures: 2 and Tutorials: 1 External: 50

Objectives:

On completion of this course the students will be able to:

- examine issues of identity and diversity in society in general and education in particular
- appreciate the need for promoting inclusive practice and the roles and responsibilities of all concerned personnel,
- develop an understanding of the needs and magnitude of the challenges faced by learners with diverse needs,
- develop an understanding of the educational needs of children from the socially disadvantaged background,
- develop an understanding about the characteristics and nurturance of creativity, and giftedness
- develop an understanding about universal design for learning approach and technology

Unit I: Educational needs of children from the Socially Disadvantaged Background

- Socially disadvantaged section in India-the scheduled castes, scheduled tribes;, children from rural areas and urban slum, geographically isolated/ hilly terrains, social and emotional problems, children with special health problems, and children belonging to other marginal groups.
- Provisions in the Constitution for social group, equity and education of socially disadvantaged groups (Education commissions, policies, programmes)

Unit II: Educational needs of children with sensory and Physical impairments

- Hearing impairment Nature and needs, types, identification, educational provisions
- Visual impairment Nature and needs, types, identification, educational provisions
- Deaf-blindness Nature and needs, types, identification, educational provisions
- Physical Impairments- Nature and needs, types, identification, educational provisions

Unit III: Educational needs of children with intellectual and Developmental Disabilities

- Intellectual Disability Concept, Difference between intellectual disability and mental illness; Levels of ID, Characteristics, identification and assessment, educational provisions
- Learning disability- Concept, types, Characteristics, identification and assessment, educational provisions
- Cerebral palsy Meaning, types, Characteristics, identification and assessment, educational provisions
- Autism Spectrum Disorders-Concept, types, Characteristics, identification and assessment educational provisions
- Giftedness and Creativity Concept and characteristics, Types of giftedness and talent, Cognitive
 and Personality Factors, Identification, Educational provisions and Techniques of Fostering
 Creativity, implications for inclusion

Unit IV: Teaching in Inclusive Setting

- Teaching in today's inclusive classrooms: A Universal Design for Learning Approach
- UDL Concept, Principles, Design, Strategies and implications
- Curricular Adaptations in both academic and non-academic areas for meeting the needs of diverse learners

Transactional Mode:

Lecture cum Discussion, group work, ICT -power-point presentation, use of internet, and field visit to get first hand exercise on inclusive practices.

Sessional Work:

The students will undertake any one of the following activities:

- o Analysis of policy document (national, international) related to diversity.
- o Survey the locality for early identification and intervention.
- Review of literature related to education of children with diverse needs presentation of reports in a seminar.
- Observation of inclusive teaching strategies and discussion.
- Planning and conducting multi level teaching / use of Universal Design for Learning Approach in the DMS (two classes).
- Observation Learning styles in a classroom.
- Visit to a special school observation of students and study aids and equipment available.
- Any other as per the local availability.

PROGRAMME PLANNING, IMPLEMENTATION AND EVALUATION GUMED – TS - PPIME2: PROGRAMME IMPLEMENTATION AND MONITORING

Credits: 3 Max. Marks: 100
Examination Duration: 2 Hours Internal: 30
Contact hours per week: Lectures: 2 and Tutorials: 1 External: 70

Objectives:

On completion of this course, the students will be able to:

- Gain insight in to the process of implementation of educational programme.
- Understand the factors affecting implementation of a programme.
- Understand the need and importance of monitoring an educational programme.
- Develop a monitoring protocol for a selected programme at elementary/secondary level.
- Analyse the factors affecting sustainability of a programme.
- Articulate the issues and challenges in implementing a programme

Course Content

Unit I: Concept and Models of implementation of an educational programme:

- Concept and importance of systematic implementation of programme
- Models for implementation of an educational programme:
 - cascade model, curricular model, service delivery model their meaning, scope, merits and demerits
- Programme Implementation and Monitoring
- Implementation structure, personnel and defining their roles and responsibilities

Programme Delivery and Monitoring

- Program delivery
- Monitoring the implementation: logical framework its meaning, components and steps in development
 - Monitoring the implementation: Personnel and activities, Tools and Techniques
- Monitoring the implementation: Data capture, consolidation and transmission

Unit II: Stages of Implementation of Programme I

- 1. Exploration
- Identify needs to determine the type of program that will be most appropriate.
- Assess organizational capacity including financial resources, organizational commitment to determine ability to implement a program with fidelity.
- Search and select a program that matches needs, available resources of the organization, and available programs.
- Understand program fidelity and program adaptation.
- 2. Installation
- Establish space in the organization for the program, including both physical space and process space.
- Develop easily accessible data systems to collect and measure the effects of the program and the process.
- Install and debug any needed equipment (e.g., software).
- Recruit, select, and hire additional staff as needed.

- Train staff to use the program and any new systems or equipment needed to implement the program.

Unit III: Stages of Implementation of Programme II

- 3. Initial Implementation
 - Managing the Change Process
 - Accepting Coaching
- 4. Full Implementation
 - Maintain and improve service, linkages, support, and infrastructure.
 - Maintain integrated, fully functioning core program components.
 - Monitor and evaluate fidelity to ensure the program is being skilfully delivered, using fidelity measures and indicators developed specifically for this purpose.
- 5. Program Sustainability
 - Ensure continued funding and the supporting infrastructure.
 - Ensure fidelity to core program components.
 - Develop and implement plans for quality improvement, including regular review of process and outcome measures and using results to improve the program.
 - Evaluate data systems that support decision-making regarding the implementation.
 - Develop new community partnerships while maintaining existing relationships.
 - Share positive results with staff, community and others to maintain buy-in and support.

Unit IV: Issues and concerns in implementation of a programme

- Issues and concerns in implementing and monitoring a programme Centralisation vs.
 Decentralisation, replication and up-scaling of programmes
- Theories and Models That Explain Implementation Effectiveness top-down and bottom-up models
- Researches findings on effective implantation of an educational programme

Sessional Work

- Study relevant documents/Annual Reports/Programme Evaluation Reports of DIET/CTE/SCERT/GU/NCERT/ NUEPA to
 - i. Develop the programme logic for a selected programme at elementary/secondary level
 - ii. Describe the implementation process in terms of the activities involved.
- Select any one current practice in elementary/secondary teacher education and identify the factors that might influence the effectiveness of its implementation.

GUIDANCE AND COUNSELLING GUMED – TS - GC2 - COUNSELLING PROCESS AND STRATEGIES

Credits:3 Max. Marks: 100
Examination Duration: 2 Hours Internal: 50
Contact hours per week: Lectures: 2 and Tutorials: 1 External: 50

Objectives

On completion of this course the students will be able to

- Understand the meaning, nature and scope of counselling,
- Appreciate the need for and goals of Counselling,
- Analyze the relationship between guidance and Counselling,

- Understand the concept and process of Counselling in group situation,
- Recognize the different areas of Counselling,
- Understand the various stages involved in the process of Counselling,
- Appreciate the importance of Counselling relationship,
- Become acquainted with the skills and qualities of an effective counsellor.
- Become acquainted with the various approaches and techniques of counselling

Unit I: Understanding Counselling

- Meaning and nature of Counselling
- Scope of Counselling
- Goals of Counselling: resolution of problems, modification of behaviour, promotion of mental health
- Relationship between guidance and Counselling: place of Counselling in the total guidance programme

Unit II: Counselling Process and Counselling Relationship

- Issues, concerns and problems of childhood and adolescence stage
- Identification of cases for Counselling
- Stages of the Counselling process
- Professional ethics

Unit III: Counselling: Skills, Approaches and Techniques

- Basic Counselling and communication skills
- Skills and qualities of an effective counsellor
- Acquaintance with major Counselling approaches: person-centred and gestalt
- Counselling techniques: cognitive, behavioural and systemic

Unit IV: Types and Areas of Counselling

- Group Counselling: nature, process and skills
- Areas of Counselling: family Counselling, adolescent Counselling
- Counselling of girls, Counselling of children belonging to special groups
- Peer Counselling: concept and relevance to the Indian situation.

Sessional Work: The students may undertake any one of the following activities:

- Identification of the cases for Counselling
- Exploring the possibilities for peer Counselling and preparing a plan for peer Counselling in the school
- Interacting with the counselor with regard to the process of Counselling, nature of problems of the students/clients and writing a report on this.

GUMED -TE-INT: INTERNSHIP IN TEACHER EDUCATION

Credits: 4 Max. Marks: 100 Duration: 3 Weeks Internal: 100

RATIONALE

The would be teacher educator needs space and time in the curriculum to realistically understand the roles and functions expected of them by observing and analyzing the activities performed by the teacher educators in an institutional context. They also need opportunities to put into action the theoretical understandings about teacher preparation gained through various courses in the curriculum. This course is designed in keeping with the above rationale and with an intention to help students integrate theory and practice of teacher education on the one hand and of school experiences with that of teacher education on the other.

Course Objectives

The course is designed to enable the prospective teacher educators to

- be acquainted with the content and organization of pre-service teacher education curriculum, infrastructure and resources needed, and the issues and problems related to teacher preparation
- Involve in various activities and processes of a teacher education institution, in order to gain an insight in to the multiple roles of a teacher educator and understand the organizational culture.
- acquire competencies and skills required for effective transaction of the curriculum and organization of component activities such as internship and working with the community
- design in-service teacher professional development program/activities based on the needs of teachers
- develop professional attitudes, values and interests needed to function as a teacher educator

Organization

The internship will be organized in two phases of two weeks in a pre-service teacher education institution and one week in an in-service teacher education setting. Necessary orientation to the students of this programme and mentor teacher educators from the respective institutions of teacher education will be provided before organizing the internship.

Activities

Task Set 1: Pre-service Teacher Education (2 weeks)

 Under the guidance of a mentor teacher educator, undertake planning and implementation of learning experiences on a unit from the prescribed course in the pre-service teacher education curriculum.

- Plan assessment criteria/tools and evaluate the performance of student teachers on the unit transacted.
- Based on the acquaintance with various activities, infrastructure and resources of the teacher education institution, prepare an institutional profile with reflections on the experiences gained

Task Set 2: In-service Teacher Education (one week)

- Undertake assessment of training need through an interview with practicing teachers
- Observe and analyze an in-service teacher education programme
- Review the TLM developed / the report of an in-service teacher education

Evaluation and Scheme of Assessment

Evaluation of performance during internship in teacher education will be done on the basis of assessment by institute supervisors and mentor teacher educators, and records/reports submitted by the students. The scheme of assessment will be as follows.

	Area	Marks
1	Pre-service Teacher Education	
	 Observing the transactional approach followed by a teacher educator 	10
	 Planning learning experiences on a unit 	10
	 implementation and evaluation of learning experiences on a group of student teachers 	25
	 Report on institutional profile and reflections 	15
		60 marks
2	In-service Teacher Education	
	 Need Assessment/Case study of the professional journey of a teacher educator 	10
	Analysis of an in-service teacher education programme	20
	Review of TLM/Programme Report	10
		40 marks
	Total	100 marks

SEMESTER III

GUMED - TC4: ADVANCED RESEARCH METHODOLOGY IN EDUCATION

Credits: 3 Max. marks: 100
Examination Duration: 2 Hours Internal: 50
Contact hours per week: Lectures: 2+Tutorials: 1 External: 50

Objectives

On completion of this course, the students will be able to:

- Test hypotheses by using different statistical techniques;
- Analyse quantitative data of educational research based on types of measurement;
- Analyse qualitative data in educational research;
- Triangulate quantitative and qualitative data;
- Use different software for data analysis;
- Analyse the role of quantitative, qualitative and triangular approaches in educational researches;
- Identify issues of data collection and their treatment;
- Develop a research report, research abstract the research paper.
- Appreciate role of research methodology in the present context.

Unit- I Inferential statistics-Parametric

Normal Probability Distribution-Concept, Characteristics and Applications; Standard Scores; Derived scores Concept, use and interpretations of Parametric and Statistics; Concept of sampling Distribution of Statistics; Standard Error as an index of sampling error; Concept of Estimation-Point and Interval; Parametric testing of Hypothesis: Concepts of One-tailed and Two-tailed Test; Type 1 and Type 2 Error; Testing the Significance of the Difference between Means, Variances, Correlations and Proportions. Analysis of Variance and Co-variance: Concept, Principle, Assumptions and Uses.

Unit-II: Inferential Statistics - Non-Parametric

Non-parametric statistics in education; Use of non-parametric tests and its rationale for distribution free data; Chi-Square Test; Median Test; Sign Test, Mann Whitney U-test and Wilcoxon test, Kruskal-Wallis test and Friedman's test.

• Quantitative Data Analysis by using Computer software {SPSS/R etc.,}

Unit-III: Analysis of Qualitative Data

- Methods of Qualitative Analysis: Coding and Categorising, data reduction, triangulation, constant comparison, induction and deduction, discourse analysis, narrative analysis, content analysis, logical analysis, critical; analysis, credibility and dependability and its preparation.
- Qualitative Data Analysis by using Computer software {AltaVista, N etc.,}

Unit-IV: Report Writing

Report writing: Chapterisation and presentation. (Language style headings & sub- headings)
 Quotations, Tables and figures, Footnotes, Bibliography, Pagination Typing and Font, Format of Report Writing; APA reference style.

• Ethical considerations in quantitative and qualitative research: Accuracy, credibility, confidentiality, transparency, honesty, originality, protecting, authenticity, plagiarism.

Transaction Mode:

Lecture-cum-Discussion, Brain Storming, Group Discussion, Presentations, Panel discussion, Seminar presentations, research exercises.

Sessional Activities:

The students will undertake the following activities:

- Preparation, try out and finalization of a tool.
- Preparing a research design for a study by considering the objectives and research tools.
- Critical analysis of two research papers (One for qualitative research and one for quantitative research).
- A critical assessment of statistical techniques used in a research report/thesis.
- Preparation of graphic designs of data obtained in a research study.
- Selection and description of appropriate statistical technique(s) for answering a research question or for testing a given hypothesis.
- Analysis of data using any one computer based statistical package.

GUMED – CLS - ELE2: ELEMENTARY EDUCATION -2

Credits: 3 Max. Marks: 100
Examination Duration: 2 Hours Internal: 50
Contact hours per week: Lectures: 2+Tutorials: 1 External: 50

Objectives

The course intends to:

 Analyze organizational structure of Elementary Education and role of various organizations, institutions and agencies in Elementary Education

- Understand the functioning of various support services at Elementary Level
- Develop critical understanding about issues and challenges in elementary education
- Understand the significance of EMIS and Research in bringing positive changes in elementary education
- Provide opportunity to develop critical understanding about significance of transitions in elementary education

Unit I: Organisations, Institutions and Agencies of Elementary Education

- Organizations and Institutions in administration and management of elementary education
 - a) national level –Ministry of Human Resource Development (CABE, NEUPA, NCERT & GUs), Ministry of Social Justice and Empowerment (RCI and National Institutes), Ministry of Woman and Child Development.
 - b) state level State department of education, Directorates and Secretariats, SCERTs / SIEs, State Institute of Educational Technology (SIET), State Institute of Educational Management and Training (SIEMAT),
 - c) at the district and sub district levels DIET, BRC, CRC, SMC (School Management Committee), PTA (Parent teacher Association) MTA (Mother Teacher Association),
- International Agencies Important UN Organisations UNICEF, UNESCO, WHO, IBE

Unit II: Support System at Elementary stage of education

- ICDS and its convergence with Elementary education -Transition from preschool to elementary school
- School guidance services and Counselling.
- Early identification and intervention for children at risk support of multi disciplinary team
- Teacher associations / federations unions and organisations at National and State levels
- Family and community- importance of their role in elementary education

Unit-III: Concerns, Issues and Challenges in Elementary Education

- Achieving UEE Universal access, retention and success
- Quality concerns in elementary education classroom processes, learning achievement, teacher and teacher preparation
- Language formula and its implementation medium of instruction, multilingual approach at primary level
- Implementation of Right of Children to Free and Compulsory Education Act 2009

Unit-1V: Educational Management Information System (EMIS) and Research in Elementary Education

- Role and functions of EMIS, U-DISE, monitoring for quality enhancement
- Utilisation of EMIS data for planning, research and feedback for improvement
- Current trend of research in elementary education in India and abroad gaps and priority areas
 - administration, management and leadership
 - issues related to elementary education (covered in unit III)
 - implementation of programs, schemes at the elementary level
 - classroom practices
 - teacher competency

Sessional Activities*

- Visit an NGO and report on the innovative practices to bring quality into elementary education / collect success stories on movement by civil society groups working for elementary education
- Arrange for a meeting with any civil society group supporting elementary education of children
- Develop a transitional plan for a child from an early childhood education centre / home to elementary school. Assess the school readiness of a child / group of children and prepare a report.
- Visit a nearby school and talk to the head teacher, teachers, students and parents collect their perspectives on any one programme or schemes of the government
- Debate on 'social category specific programmes is it leading to universalisation of elementary education'
- Collect one research article in any of the areas mentioned in the unit and discuss its implications for elementary education
- Identify children out of school in a locality and analyse the reasons for not enrolling in school
- View films / videos on issues related to elementary education (Lilkee, India untouched, darker side
 of India, videos on talks of Abdul Kalam, Kailash Sathyarthi, Malala and many other who speak for
 education)
- Collect data regarding enrolment of CWSN in a district from EMIS and develop a research proposal to analyse their difficulties/participation/success
- Analyze and compare U- DISE data of any two states available at the NEUPA website
- Analyze and compare quality monitoring data for any two states available on QMT portal (www.ciet.nic.in/QMTs/index.php#)

Transactional Modalities:

- Lecture-cum-discussion, Group discussion, Panel discussion, Seminar, Group Work, Library work, Activities, Projects, Collaborative Presentations
- School visits and sharing of experiences
- Seminar presentation by students on selected themes individually and collectively leading to discussion;
- Library readings on selected theme followed by group discussion;
- Study of documents and references, Reflective interaction with the peer group
- Workshops, assignments and group discussion around issues and concepts studies in theory
- Projects and assignments focusing on observation and interaction with children on specific theme

GUMED - CLS - SEC2: SECONDARY EDUCATION -2

Credits: 3 Max. Marks: 100
Examination Duration: 2 Hours Internal: 50
Contact hours per week: Lectures: 2+Tutorials: 1 External: 50

Objectives

The course intends to:

- Analyse the role of various organisations, institutions and agencies in Secondary Education
- Develop perspective on transition from elementary education to secondary education
- Understand the functioning of various student support services at Secondary Level
- Provide opportunity to develop critical understanding about significance of vocational education
- Develop critical understanding about issues and challenges in secondary education
- Understand the significance of Research and advocacy in bringing positive changes in secondary education

Unit-I: Organisations, Institutions and Agencies in Secondary Education

- Organizations and Institutions in administration and management of secondary education at national level –Ministry of Human Resource Development (CABE, CBSE, ICSE, NEUPA, NCERT (NIE, CIET, PSSCIVE & GU, NIOS); Ministry of Social Justice and Empowerment (RCI and National Institutes)
 -at the state level - State departments of education, Directorates and Secretariats, State
 - Boards of School Education, SCERT / SIE, State Institute of Educational Technology (SIET), State Institute of Educational Management and Training (SIEMAT)
 - at the district and sub district levels District Education Office, Block Education Office, Department of Public Instruction, SMC (School Management Committee), PTA (Parent Teacher Association)
- International Agencies Important UN Organizations UNICEF, UNESCO, WHO, IBE –their work in school and teacher education

Unit-II: Support Services at Secondary Level

- Relevance and quality of present Secondary Education for upward mobility
- Different streams of vocational education at senior secondary stage; Mapping of vocational training institutes; institutes of National importance for vocational education.
- School Guidance and counselling, career guidance, health service, Scouts and Guides, alternative system.
- Function of Students' clubs as support mechanism to students' abilities
- Teacher associations/federations and organisations at National and State levels as support agencies
- Family and community- importance of their role in secondary education

Unit-III: Issues and Challenges in Secondary Education

- Problems and challenges related to universalisation of Secondary Education
- Quality concerns in secondary education classroom processes, learning achievement, teacher and teacher preparation

- Problems / challenges/ strategies / intervention in relation to access enrolment, dropout, achievement equality of Educational opportunities
- Problems of education for girls, disadvantaged and children with special needs
- Classroom problems discipline, under achievement, lack of motivation, delinquency and maladjustment

Unit-IV: Educational Management Information System (EMIS) and Research in Secondary Education

- Role and functions of EMIS, U-DISE, monitoring for quality enhancement
- Utilisation of EMIS data for planning, research and feedback for improvement
- Comparative analysis of researches in different countries with special reference to secondary education programmes
- Current trend of research in elementary education in India and abroad gaps and priority areas
- administration, management and leadership
- issues related to elementary education (covered in unit IV)
- implementation of programs, schemes at the elementary level
- classroom practices
- Teacher competency

Sessional Activities

- Visit and report on any of the innovative NGOs / collect success stories on movement by civil society groups working for secondary education
- Visit a nearby school and talk to the head teacher, teachers, students and parents collect their perspectives on any one programme or schemes of the government for improving secondary education
- Collect data regarding enrolment of CWSN in a district from MIS and develop a research proposal to analyse their difficulties
- Collect one research article in any of the areas mentioned in the unit and discuss its implications for secondary education
- Identify children drop out from secondary schools of cluster and analyse the factors
- Collect information about the existing scenario of adolescent education and panel discussion on the issues identified and arrive at consensus for possible solutions to the problems of adolescence
- View films / videos on issues related to secondary education and prepare a review report
- Collect data regarding enrolment of CWSN in a district from EMIS and develop a research proposal to analyse their difficulties/participation/success
- Analyse and compare U- DISE data of any two states available at the NEUPA website
- Analyse and compare quality monitoring data for any two states available on QMT portal (www.ciet.nic.in/QMTs/index.php#)

Transactional Modalities:

- Lecture-cum-discussion, Group discussion, Panel discussion, Seminar, Group Work, Library work, Activities, Projects, Collaborative Presentations
- School visits and sharing of experiences

^{*} The sessional activates are only suggestive.

- Seminar presentation by students on selected themes individually and collectively leading to discussion:
- Library readings on selected theme followed by group discussion;
- Study of documents and references, Reflective interaction with the peer group
- Workshops, assignments and group discussion around issues and concepts studies in theory
- Projects and assignments focusing on observation and interaction with children on specific theme

GUMED - PC4: PHILOSOPHY OF EDUCATION

Credits: 3 Maximum Marks: 100

Contact Hours: 2L + 1T Internal: 50 Examination: Two Hours External: 50

Objectives:

The course intends to:

- Develop insights into nature and purpose of philosophy of education;
- Develop critical understanding of normative nature of education
- Develop abilities to identify processes, and sources of knowing in different contexts and different subject knowledge;
- Develop insight into theories of knowledge;
- Develop the ability to appreciate the critical role of culture in knowing;
- Equip with theoretical tools to analyze emerging concerns in education

Unit-I: Understanding Philosophy of Education

- Philosophy: Meaning, Nature, and Purpose; Branches of Philosophy –Ontology (Meta-physics),
 Epistemology and Axiology
- Functions of philosophy: speculative, normative/prescriptive and analytical
- Philosophy of Education: Meaning, Nature and Purpose
- Reflecting and classifying the meaning and definitions of education in terms of /from the perspective of---
 - ✓ Education as process
 - ✓ Education as purpose
 - ✓ Education as system
 - ✓ Education as profession

Unit-II: Understanding knowing and Knowledge: Epistemological Enquiry-I

- Knowing Process: sensation, perception, reason and conception
- Doing, thinking and feeling in knowing
- Knowing: Sources & Ways of knowing: western and Indian (Pramanas- their origin from different philosophical systems; different pramanas) and their implications to school knowledge
- Knowing: Relative roles of knower -the subject-and the to be known- the object-
- Role of Intuition in knowing
- Reason: Meaning and Nature—Role of reason in meaning making and knowledge construction
- Role of culture in knowing: Particularly language and symbols

Unit-III: Understanding knowing and Knowledge: Epistemological Enquiry- II

- Knowledge: Meaning and nature; Knowledge as belief and knowledge claim as truth/ as truth claim
- Constituents of Knowledge: Facts, Principles, Laws, Concepts and Theories
- Different facets of knowledge: Concrete –Abstract; Particular- Universal;

- Origin of Knowledge: contending theories: Empiricism and Rationalism
- Different forms of Discipline and their relation to school knowledge
- Nature of school knowledge
- Validation of Knowledge-different theories

Unit-IV: Understanding Values: Axiological Enquiry

- Values: Meaning and their role in individual and social life
- Values and associated terms—ethics, morals, principles, rules, principles, laws, customs and tradition
- Values: Sources and their nature
- Kinds of Values: Personal, Economic, Social, Political and Spiritual
- Theories of values: Subjective and Objective theories
- Value conflict, Value crisis—crisis in values
- Role of education in value transformation
 - Aims of Education: Historical inquiry
 - o Political ideologies and aims of education
 - o Economic imperatives and aims of education
 - o Cultural moorings and aims of education
 - o Individual aim and social aim: Relationship (balancing)
 - o Cultural aim and economic aim: Contradictory or complimentary
 - Constitutional values-Equality, Freedom and Social Justice, secularism: Philosophical Understanding; Rationality as a value
 - Role of education in realizing the Constitutional Values: Possibilities and limitations
 - Globalization and its impact on the Purposes of education

Transactional Modalities:

- Expositions, Lectures, Reflective talks, dialogue, discussion
- Library readings;
- Documenting the dialogues.

Sessional Activities:

- Analysis of aims of education in successive curriculum frameworks –starting from McCauley Minutes -1835, 1975, 1988, 2000 and 2005- to reflect on the change and continuity in the articulation of aims of school education and the ideological reasons for change and continuity.
- Readings on Aims of Education by Alfred North WhiteHead and discussion
- Readings on values in Upanishads, Gandhi, Aurobindo, Swami Vivekananda, Tagore, J.
 Krishnamurthi on values and their relevance to constitutional values and value education in schools followed by presentations.

Suggested Reading

EDUCATIONAL MANAGEMENT, ADMINISTRATION AND LEADERSHIP GUMED – TS - EMAL3: EDUCATIONAL LEADERSHIP AND SUPERVISION

Credits: 2 Max. Marks: 100
Examination Duration: 2 Hours Internal: 50
Contact hours per week: Lectures: 2+Tutorials: 1 External: 50

RATIONALE

The course intends to familiarize the prospective teacher-educators with the concept, purpose, principles and approaches of Educational leadership and Supervision in elementary and secondary education. It would guide them to explore the structure and practices of school leadership and Supervision at elementary and secondary level. It proposes to make them aware and sensitize with the contemporary issues and the current trends of research in leadership and supervision in elementary and secondary education. The study of the paper would help them to conceptualize the relationship among leadership and supervision and the role and functions of different bodies/structures for on and management of elementary and secondary education at national, state, district, cluster and block levels. Approaches and process of Leadership and Supervision of elementary and secondary education will be studied in terms of its strategies and components. Different functions of leadership and Supervision at elementary and secondary level will be analyzed to develop critical understanding of these functions and their impact on smooth execution of the system. Educational leadership and Supervision in elementary and secondary education will be examined in terms of its importance in quality management and the determinants ensuring effective leadership. The unit of contemporary issues in leadership in elementary and secondary education would equip the prospective teacher-educators with necessary knowledge and skills to deal with these challenges in a systematic and innovative way.

OBJECTIVES:

After completing the paper, teacher-educators will be able:

- To provide the teacher-educators with the critical knowledge of leader's skill, task and the role.
- To acquaint teacher-educators with the role of the principal in maintaining human relationship.
- To acquaint the teacher-educators to understand the role of the leader in the professional growth of the personal.
- To acquaint the teacher-educators with the concept of supervision and its functions.

• To appreciate the role of the leader in the functioning of an institution.

Unit I: Educational Leadership

- Meaning and Nature of Leadership
- Theories of Leadership
- Leadership traits: responsible, self disciplined, innovative, imaginative, good at organization, correct in judgment, visionary etc.
- Educational administration leadership skills.
 - (a) Decision making (b) Planning (c) Co-ordinating(d) Communicating (e) Evaluating (f) Feed Back.
- Behaviour pattern of Educational leadership:
 - (a) Aloofness (b) Production emphasis (c) Thrust (d) Consideration (e) Human relationship.
- Styles of educational leadership.
 - (a) Automatic (b) Lissez faire (c) democratic

Unit II: Educational Supervision

- Meaning, Nature and importance of Educational supervision
- Supervision as Service Activity, Supervision as a Process, Supervision as Functions, Supervision as Educational Leadership
- Functions of Supervision
- Planning of Supervisory Programme
- Organizing Supervisory Programme
- Factors Influencing Supervision

Unit 111: Implementing the Supervisory Programme and Quality Management

- Types of supervisory programmes
- Techniques and methods of supervision:
 - Observation or classroom visitation, Demonstration, Group Study or Workshop, Conferences, Feedback and Follow-up, Monitoring, Records and Group Process
- Meaning and importance of Quality
 - Quality in Education
 - Accreditation Concept- Meaning , Parameters
 - Role of NAAC

TRANSACTIONAL MODE

The course would be transacted through participatory approaches including lecture cum
discussion, brain-storming, group discussion, case studies, group and individual field based
project and assignments followed by seminar presentation, workshop on field based topics of
study, panel discussion, survey, ICT lab work, role play, field visits and narration etc.

Sessional work:

The teacher-educators may undertake any one of the following activities:

- Preparing a report on review of research articles related to the contemporary issues in leadership in education
- Study of leadership quality of educational administrator / Head of the institution .
- Write essay on organisational compliance, group dynamics, conflict management, motivation of the staff and participatory decision making for effective educational leadership at school level

Supervision of in service and pre service teacher training program in DIET/GU/SCERT/CTE/IASE

CURRICULUM, PEDAGOGY AND ASSESSMENT GUMED - TS-CPA3: CURRICULUM EVALUATION, POLICIES AND RESEARCH

Credits: 2 Max. Marks: 100 Examination Duration: 2 Hours Internal: 50 Contact hours per week: Lectures: 3+Tutorials: 2 External: 50

OBJECTIVES:

On completion of this course the students will be able to:

- Understand the need for curriculum evaluation and the strategies involved in curriculum evaluation
- Analyze various models of curriculum evaluation and their relevance to Indian Education context
- Analyze the textbooks and other curricular materials using appropriate criteria
- Examine the role of stakeholders at state, regional and national level in implementing and evaluating the curriculum.
- Analyze the issues and problems related to evaluating the curriculum in a systematic manner.

Unit I: Concept and Models of curriculum evaluation

Curriculum evaluation: concept and meaning; Need for curriculum evaluation

 Curriculum evaluation models: Ralph Tyler's evaluation model; CIPP model (Stufflebeam); Robert Stake's countenance model; Micheal Scriven's model Programme evaluation: meaning and importance

Unit II: Facets of curriculum evaluation

- Determination of general educational aims and specification of major objectives
- Evaluation at planning stage
- Try out and revision of educational materials and methods
- The field- trial stage of curriculum evaluation
- Evaluation at the stage of large-scale implementation
- Role of evaluator in quality control (Process of quality control, identifying the effective and deterioration, systematic stock taking of implemented curriculum (Summative tests, course exams, additional data), identify causes of deterioration

Unit III: Curriculum evaluation: Instrumentation and strategies

- Expert judgment of evaluation data
- Observation/ techniques
- Use of tests and scales in evaluation
- Teachers, parents and community as data sources
- Collecting and analysing evaluation data
- Criteria involved in textbook evaluation and other curricular materials
- Issues in curriculum evaluation: Lack of balance between theory and practice in curriculum evaluation; Lack of systematic follow up activity after curriculum implementation

Sessional activities

The students will be involved following activities

- Identification various criteria to evaluate textbook/ programme/ course
- Evaluation of the textbooks of NCERT/ States in the Region and other curricular materials using appropriate criteria followed by presentation
- Study various projects and researches conducted for evaluating the school curriculum at the state and national level.

EDUCATIONAL TECHNOLOGY AND ICT GUMED – TS – ETICT3: E-LEARNING

Credits: 2 Max. Marks: 100
Examination Duration: 2 Hours Internal: 50
Contact hours per week: Lectures: 2+Tutorials: 1 External: 50

Objectives

- 1. Describe the concept, nature, and components of e-learning
- 2. Explore and use various e-learning tools and technologies
- 3. Use e-learning standards while designing and delivering e-learning
- 4. Explain the elements technology leadership in providing technology supported learning environment
- 5. Analyse a comprehensive range of approaches to e-Learning in detail;
- 6. Evaluate critically the practices associated with e-Learning;
- 7. Relate e-Learning systematically to a range of broader issues in both pedagogy and formal education.

Unit I: Foundations of Online Learning

- Historical perspectives on e-learning
- Why e-learning?
- Characteristics of digital natives
- Twenty First Century Skills and e-Learning
- Approaches to e-learning
- Components of e-learning

Unit II: E-learning Tools and Standards

- Synchronous and Asynchronous Tools
- Learner Management System: Meaning, Types, features, proprietary versus open source LMS
- Use of web 2.0 Tools/communication and collaboration tools in e-learning
- E-learning Standards
 - o Metadata: meaning, types and need
 - SCORM: features, procedure and limitations
 - o IMS: features, procedure and limitations
 - o ARDIANE: features and procedure
 - Dublin core
 - o AICC

Unit III: E-Learning Resources and Approaches

- Emerging e-learning approaches
 - M-learning
 - Mobile applications
 - Advantages of M-learning
 - Ubiquitous technology and mobile learning
 - o Blended Learning: concept, requirements, advantages and limitations
 - MOOC: concept, tools, advantages and limitations
 - Flipped Learning: concept, procedure, tools, advantages and limitations
- Designing courseware for e-learning, blended learning, MOOC, Flipped, M-learning

Sessional Work

1. Analysis of the characteristics of digital natives

- 2. Review of e-learning standards
- 3. Comparative study of various learner management systems
- 4. Creation of social bookmark on all web 2.0 tools
- 5. Use of any subject specific tools like geogebra for teaching a particular unit (plan and action)
- 6. Review any ten android applications for education
- 7. Developing/ reusing any content and providing flipped learning to school students
- 8. Review of all MOOC providers and their courses
- 9. Review of research literature on any aspects of educational technology
- 10. Developing a technology integration plan for a school

INCLUSIVE EDUCATION

GUMED - TS-IE3: CONCERNS, CHALLENGES, AND ISSUES IN INCLUSIVE EDUCATION

Credits: 2 Max. Marks: 100
Examination Duration: 2 Hours Internal: 50
Contact hours per week: Lectures: 2 and Tutorials: 1 External: 50

Objectives:

On completion of this course the students will be able to:

- understand concerns, challenges and issues in the implementation of IE,
- know about controversial issues in inclusive education, including particularly marginalised groups, specific learning difficulties and the future of special schools,
- use ICT in inclusive settings,
- develop the ability to conduct and supervise research and action research activities,
- develop research skills and understanding of various methods and tools used in the research in IE in order to explore these issues further,
- identify, analyse and utilize various techniques and methods required for the development of practical skills among LwDNs,
- use assistive devices and strategies for meeting diverse needs
- develop a positive attitude and sense of commitment towards actualizing the right to education of all learners
- develop an understanding of evaluation and alternative assessment

Unit I: Teacher Preparation for Inclusive Education

- Critical analysis of the curriculum of Institutions preparing teachers with reference to inclusive education – National and International
- Discussion on the best practices in teacher preparation National and International
- Professional growth of teacher educators (sharing of success stories)

Unit II: Changing roles of Education in Schools

- Assistive Devices, and Strategies for meeting learning needs of diverse learners
- Challenges and Issues in the Implementation of Inclusive Education, Controversial issues in Inclusive Education, including particularly marginalized groups, specific learning difficulties
- Need for flexible evaluation system, and Alternative assessment.

Unit III: Research Methodology in Inclusive Education

- Research Methods and Research Tools (Case study, In depth Interviewing, Ethnography and Observation, Narratives, Documents and Diaries) needed,
- Steps involved in planning and supervising research activities,
- Recent trends in Research in Inclusive Education,
- Review of Research in the area of Inclusive Education (sessional work)

Transactional Mode:

Lecture cum Discussion, group work, ICT - power-point presentation, use of internet, and field visit to get first hand experience on inclusive practices.

Sessional Work:

The students will undertake any one of the following activities:

- Make a list of existing resources in the local area and discuss their use and limitations based on survey of five inclusive schools.
- Conduct a survey in the local area to ascertain the prevailing attitudes / practices toward social, emotional and academic inclusion of children with diverse needs.
- Reflective Journal writing
- o Preparation of IEPs, and Case studies of LwDNs
- Administration of Psychological tests
- o Identification of an area and conduct Action Research
- Handling of Aids and appliances/ assistive devices used in the education of learners with diverse needs
- o Review of National/International Journals in Inclusive Education
- Conduct a survey on the type of supportive service needed for inclusion of learner of diverse need of your choice and share the findings in the class.
- Preparation of ICT based teaching learning materials

Programme Planning, Implementation, Monitoring and Evaluation GUMED – TS - PPIME3: PROGRAMME EVALUATION

Credits: 2 Max. Marks: 100
Examination Duration: 2 Hours Internal: 50
Contact hours per week: Lectures: 2 and Tutorials: 1 External: 50

Objectives:

On completion of this course, the students will be able to:

- Understand the need and importance of evaluating an educational programme.
- Gain insight in to the process of evaluation of an educational programme.
- Suggest appropriate type of evaluation based on the objectives and evaluation questions stated.
- Suggest the evaluation design based on the information provided about a programme in practice.
- Develop a proposal for evaluating a given educational programme.

Course Content

Unit I: Meaning and Types of Programme Evaluation:

- Programme evaluation its meaning and importance in quality assurance
- Different types of programmes
 - Direct service interventions, Community mobilization efforts, Research initiatives,
 Surveillance systems, Infrastructure building projects, Training programs, Administrative systems
- What is evaluated –types of programme evaluation:
 - Programme theory evaluation, Formative evaluation, Process/implementation evaluation, Outcome / effectiveness evaluation, and Impact evaluation.

Unit II: Planning a Programme Evaluation

Planning a programme evaluation

- Examine the issue, audience, and programme objectives
- Establish the evaluation team
- Identify a purpose for the evaluation
- Prepare evaluation time line and role allocation

Unit III: Methodology of Programme Evaluation I:

- Bennett's program evaluation methodology to measure effectiveness:
 - Inputs: time expended, staff qualifications
 - Activities: educational methodology
 - People involvement: number and characteristics,
 - continuity and intensity
 - Reactions: interest in activities, acceptance of leadership
 - Practice change: individual innovation, structural change
 - End result: ultimate objectives, side effects

Transactional Mode:

Lecture cum Discussion, group work, ICT - power-point presentation, use of internet, and field visit to get firsthand experience.

Sessional Work:

The students will undertake any one of the following activities:

- Study relevant documents/Annual Reports/Programme Evaluation Reports of DIET/CTE/SCERT/GU/NCERT/ NUEPA to
 - iii. Develop the programme logic for a selected programme at elementary/secondary level
 - iv. Describe the implementation process in terms of the activities involved.
- Select any one current practice in elementary/secondary teacher education and identify the factors that might influence the effectiveness of its implementation.

GUMED - TS-GC3: ASSESSMENT AND APPRAISAL IN GUIDANCE AND COUNSELLING

Credits: 2 Max. Marks: 100
Examination Duration: 2Hours Internal: 50
Contact hours per week: Lectures: 2 and Tutorials: 1 External: 50

Objectives

On completion of this course the students will be able to

- Develop an understanding of the nature, process, underlying assumptions and principles of psychological assessment and appraisal.
- Gain insight into different techniques of psychological assessment; their nature, scope and application in guidance and Counselling
- Develop knowledge and understanding of the major psychological concepts such as Intelligence, Aptitude, Achievement, Personality, Interest and their assessment for providing guidance and Counselling
- Develop skills for administering, scoring, interpreting and analyzing test results.

Unit I: Understanding Assessment and Appraisal

- Assessment and appraisal in Guidance and Counselling: nature, importance, assumptions and principles
- Issues in psychological testing; distinction between testing and non-testing technique
- Characteristics of a good psychological test; procedure of construction, administration, scoring and interpretation of psychological tests

Unit II: Qualitative Techniques for Assessment

- Need and importance of qualitative assessment
- Tools for qualitative assessment: observation, interview, anecdotal records, case study, autobiography, rating scale, sociometry
- Procedure of development, administration, scoring and interpretation through qualitative assessment

Unit III: Assessing Individual Differences: Achievement, Personality and Interest

- Teacher-made and Standardized Achievement test, measurement of scholastic achievement and its significance in various educational and career decisions
- Concept of personality; methods of personality assessment
- Importance of assessing interest for educational and vocational guidance

Sessional Work: The students may undertake any one of the following activities:

- Review one each from the following category of tests: Aptitude, Personality and Interest.
- Administer a test of Intelligence on a group of high school students and prepare a report.
- Prepare a sociometric test. Administer the test on a group of students. Draw a sociogram and describe in detail the group climate.

INTERNSHIP IN THEMATIC SPECIALIZATIONS GUMED – TS – EAM - INT: INTERNSHIP IN EAML

Credits: 4 Max Marks: 100 Total Duration: 3 Weeks Internal: 100

Internship activities at elementary/secondary level (any two)

- 1) Field visit to RMSA office at block/district/state level to collect and review the records of annual work plan and budget
- 2) Preparation of a an interview schedule for the schoolheads and in-service elementary and secondary school teachers with regards to management of their continuous professional development
- 3) A study of organizational climate of the institutions in administration and management of elementary and secondary education
- 4) Case study of the school Head Master elementary/secondary from administrative point of view.
- 5) Study the functioning and contribution of SCERT/SIEMAT.
- 6) Study the resources available in the school and find out the relationship with community also.
- 7) To study the structural and functional setup of management in school for elementary/secondary education state government.
- 8) A case study of functioning of rural/urban governance bodies for administration and management of elementary and secondary education in nearby locality
- 9) Preparing an organograph for management of a elementary /secondary school/project/programme/scheme through scientific approaches like SWOT/ PERT/ CPM/ PPBS/ system approach
- 10) Performing and recording the practical related to use of ICT tools and techniques like EMIS, LMS, web 2.0, videoconferencing, webinar etc. for school management
- 11) Preparation of a plan for procurement, utilization and maintenance of resources in elementary and secondary education.
- 12) A study of organisational climate of the institutions in administration and management of elementary and secondary education

- 13) Preparation of a an interview schedule for the school heads and in-service secondary and teachers with regards to management of their continuous professional development
- 14) Field visit to RMSA office at block/district/state level to collect and review the records of annual work plan and budget

Elementary stage

- 1) Preparation a report on the role and function of Principal of the DIET.
- 2) Prepare report on the monitoring and supervision infrastructural facilities and academic work of DIET.
- 3) Study of the various schemes running by central and state government in DIET.
- 4) Study the functioning and contribution of school management committee participation and learning achievement

GUMED - TS - CPA - INT: INTERNSHIP IN CPA

Credits: 4 Max Marks: 100
Total Duration: 3 Weeks Internal: 100

RATIONALE

The students specializing in curriculum, pedagogy and assessment needs to realistically understand the policies, practices and issues in curriculum development, pedagogic and assessment practices in an institutional context. They also need opportunities to see in action the theoretical understandings about innovations in curriculum development and implementation gained through various courses in this cluster. This course is designed in keeping with the above rationale and with an intention to help students integrate theory and practice.

Course Objectives

The course is designed to enable the prospective teacher educators to

- be acquainted with the curriculum development process at elementary/secondary stage in a state
- involve in observing and analyzing various activities and processes of an institution/agency working on textbook preparation conducting examination at the state level.
- acquire competencies and skills required for effective transaction of curriculum and organization of component activities with respect to an innovative practice in pedagogy and assessment
- develop professional skills required for analyzing an assessment tool/practice

Organization

The internship will be organised by attaching the students to different institutions and agencies engaged with curriculum development and assessment activities. A student would undertake the activities listed below under the guidance and active supervision of a teacher educator/practitioner. Necessary orientation to students will be provided before organizing the internship.

Activities

Attachment to the Curriculum Development Agency such as SCERT/SIE (1 week)

• Study of curriculum making process at elementary/secondary stage through document analysis and interview with the concerned.

- Interview textbook writers in any one subject to understand the intricacies and challenges in textbook preparation at elementary/secondary stage
- Based on the acquaintance with various activities, infrastructure and resources of the curriculum making agency/institution, prepare an institutional profile with reflections on the experiences gained

Attachment to Schools (2 weeks)

Students would be attached to different types of schools such as government-private; state-central; minority-tribal-others; rural-urban; residential-non residential for a comparative analysis of the following aspects:

- Curriculum implementation process through interview with practicing teachers
- Innovativeness in pedagogic and assessment practices
- Involve in the process of implementation of a portion of the curriculum as practiced in an innovative scheme/program such as ABL/MLE/Kali-Nali

Evaluation and Scheme of Assessment

Evaluation of performance during internship in curriculum, pedagogy and assessment will be done on the basis of assessment by institute supervisors and mentor teacher educators, and records/reports submitted by the students. The scheme of assessment will be as follows.

Activity. No	Area	Marks
	Attachment to the Curriculum Development Agency such as SCERT/SIE	
1.1	Study of curriculum making process at elementary/secondary stage through document analysis and interview with the concerned.	15
1.2	Interview textbook writers in any one subject to understand the intricacies and challenges in textbook preparation at elementary/secondary stage	15
1.3	Based on the acquaintance with various activities, infrastructure and resources of the curriculum making agency/institution, prepare an institutional profile with reflections on the experiences gained	20
	Attachment to Schools	
2.1	Study of Curriculum implementation process through interview with practicing teachers in four schools	25
	Case Study of an Innovative Programme	
3.1	Report on Innovativeness in pedagogic and assessment practices	10
3.2	Involve in the process of implementation of a part of the curriculum as practiced in an innovative scheme/program such as Activity Based Learning/Multi Lingual Education/Kali-Nali (Joyful Learning)	15
	Total	100

GUMED - TS - ETICT - INT: INTERNSHIP IN ETICT

Credits: 4 Max marks: 100
Total Duration: 3 Weeks Internal: 100

RATIONALE

The students specializing in educational technology and ICT needs to realistically understand the integration of technology and the related practices in an institutional context. They should understand the problems associated with technology integration and its effectiveness through spending time in developing, implementing and reviewing the implementation in an institutional context. They also need opportunities to see in action the theoretical understandings about innovations in ET and implementation gained through various courses in this cluster. This course is designed in keeping with the above rationale and with an intention to help students integrate theory and practice.

Course Objectives

The course is designed to enable the prospective teacher educators to-

- Review and analyze e-learning content and courses through experiential learning
- Observe and analyze the e-content development process in an institutional set up
- Plan, design and develop e-content at school or teacher education level using design principles and FOSS tools
- Provide e-learning using different approaches to school students or teacher trainees and assess its impact and report

Organization

The internship will be organised by attaching the students to different schools/teacher education institutions and other agencies engaged with ET activities. A student would undertake the activities listed below under the guidance and active supervision of a teacher educator/practitioner. Necessary orientation to students will be provided before organizing the internship.

Activities

1. Review and evaluate E-content and e-courses

- a. Evaluate a standalone RLO, e-content using the specified criteria
- b. Enroll for a MOOC course of interest and of minimum three weeks duration. On completion of the course review and evaluate the course content, design and delivery
- c. Complete a free e-learning course. review and evaluate the course content, design and delivery

2. Design and develop e-content for school subject/BEd subject

- a. Plan and develop e-content for any one approach like MOOC/E-learning/Flipped learning /Blended Learning
- This could be done with the assistance of experts in school/CIET/EMRC/e-learning industry/TEI
- c. This will involve script writing, video production and editing, audio editing, story board, graphics creation and editing, putting together using authoring tools
- d. Get the program reviewed by content and technical experts in the field

3. Field Implementation

- a. Populate the LMS plat form or MOCC platform with the content created in the previous activity and Provide e-learning/MOOC/Flipped Learning/blended learning in a school/teacher training institute
- b. This will involve use of LMS/MOOC platform/Face to face interaction. Could be done in intranet, internet
- c. Review and evaluate the effectiveness and prepare a report

Evaluation and Scheme of Assessment

Evaluation of performance during internship in ET will be done on the basis of assessment by institute supervisors and mentor teacher educators, and records/reports submitted by the students. The scheme of assessment will be as follows-

Activity No	Area	Marks
	Review and evaluate E-content and e-courses	
	Evaluate a standalone RLO, e-content using the specified criteria	5
1	Enroll for a MOOC course of interest and of minimum three weeks duration. On completion of the course review and evaluate the course content, design and delivery	10
	Complete a free e-learning course. review and evaluate the course content, design and delivery	10
	Total	25
	Design and develop e-content for school subject/BEd subject	
11	Script and story board	10
	Audio, video, graphics	15
	Final content in authoring with interactivity using authoring tool	10
	Total	35
II	Field Implementation	
	Developing the course in LMS	10
	Providing LMS based e-learning	15
	Report preparation and presentation	15
		40
	Total	100

GUMED -TS-IE-INT: INTERNSHIP IN IE

Credits: 4 Max marks: 100
Total Duration: 3 Weeks Internal: 100

Objectives

The course is designed to enable the would be teacher educators to

- develop sensitivity and positive attitudes, values and interests needed to function as a inclusive teacher educator
- acquire competencies and skills required for effective implementation of Inclusive education
- be acquainted with the content and organization of curriculum, infrastructure and resources needed, and the issues and problems related to inclusive education
- involve in various activities and processes of inclusive education and inclusive institution, in order to gain an insight in to the multiple roles of a teacher educator.
- design professional development program/activities based on the needs of teachers

Activities:

- Visit to schools from any disadvantaged background (disability, tribal, minorities, urban slum etc).
 Observe few classes
 - a. to understand the culture of the school and classroom
 - b. identify specific needs of learners
 - c. critically analyse and report on ways and means of including them in regular schools

(1 week, 1 credit) 25 Marks

2. Visit an inclusive school where children from any disadvantaged background are enrolled. Observe the school / classroom with reference to the index of inclusion (culture, policy and practice). Give a suggestive plan for effective inclusion of such students.

(1 week, 1 credit) 25 Marks

3. Design and implement at least 3 lessons (1 in subject area, 1 in art and craft, 1 in physical education) based on universal design for learning (UDL) for any class at the elementary / secondary level.

(1 week, 1 credit) Mark 25

4. Attachment with an NGO / research institute working for the education / habilitation of children from the disadvantaged background.

or

Develop and try out ICT enabled learning resources

or

Read and discuss on the life of individuals who have converted disadvantage into opportunities and achieved in life

or

Role of SMC/PTA/MTA for effective implementation of inclusive education

(1 week, 1 credit) Mark 25

GUMED - TS - PPIME - INT: INTERNSHIP IN PPIME

Credits: 4 Max Marks: 100
Total Duration: 3 Weeks Internal: 100

Every student is required to select one educational programme/intervention and carry out following activities by visiting appropriate sites

- 1. Describe the planning process at various levels through discussion with concerned functionary and document analysis
- 2. Study the implementation of the programme for a duration of two weeks (Prepare a power point presentation describing (i) the planning process and (ii) the implementation process to be presented at the institution after the internship)
- 3. Prepare an Evaluation Plan for evaluating the selected programme, Conduct Evaluation and Prepare a report

(Note: The internship would be places in the Semester 3 and ISB 3. Students need to be provided orientation to the internship and the activities to be performed before organising the internship)

Scheme of Evaluation:

- I. Presentation on analysis of programme planning process 25 marks
- II. Presentation on analysis of programme implementation process 25 marks
- III. Evaluation Report 50 marks.
 - Programme Logic Model 10 marks
 - Evaluation Framework 10 marks
 - Evaluation Tools and Techniques 10 marks
 - Data Analysis and Display 10 marks
 - Results and Recommendations 10 marks

GUMED - TS - GC - INT: INTERNSHIP IN GC

Credits: 4 Max Marks: 100
Total Duration: 3 Weeks Internal: 100

RATIONALE

The students specializing in Guidance and Counselling needs to realistically understand the nature and scope of implementation of guidance and Counselling services in schools. They also need opportunities to plan and implement guidance and Counselling activities in school. This course is designed in keeping with the above rationale and with an intention to help students integrate theory and practice.

Course Objectives

The course is designed to enable the prospective teacher educators to

- be acquainted with the guidance and Counselling process at elementary/secondary stage in a state
- involve in organising various activities of guidance and Counselling in school.
- acquire competencies and skills required for effective implementation of guidance and Counselling

• develop professional skills required for a counselor

Organization

The internship will be organised by attaching the students to school. A student would undertake the activities listed below under the guidance and active supervision of a teacher educator/practitioner. Necessary orientation to students will be provided before organizing the internship.

Activities

Attachment to an elementary/secondary/senior secondary school for testing and counselling practicum (2 weeks)

- Identify the need and provide Counselling to at least three students.
- Develop a report card of ability profile of a class based on qualitative and quantitative assessment using testing and non-testing techniques
- Develop a plan for implementation of guidance in a school

Attachment to School for Career Guidance (One week)

Students would be attached to a school for undertaking following activities:

- Organize two class talks and two career talks
- Organize career conference

Evaluation and Scheme of Assessment

Evaluation of performance during internship in guidance and counselling will be done on the basis of assessment by institute supervisors, and records/reports submitted by the students. The scheme of assessment will be as follows.

Activity. No	Area	Marks	
	Attachment for testing and Counselling practicum		
1.1	Identify the need and provide Counselling to at least three students.	15	
1.2	Develop a report card of ability profile of a class based on qualitative and	15	
1.2	quantitative assessment using testing and non-testing techniques	15	
1.3	Develop a plan for implementation of guidance in a school	20	
	Attachment to School for Career Guidance		
2.1	Organize career conference	15	
3.1	Organize two career talks and Career talks	20	
3.2	Submission of Report and Record	15	
	Total	100	

SEMESTER IV

GUMED - TC5: ACADEMIC WRITING

Credit: 2 Marks: 50 (Internal Assessment)

Duration: Workshop mode spread over semester

Rationale: This course aims to create expertise in writing skills. Since academic writing does not cover professional aspects of writing (e.g. CV, noting and drafting, letters etc.) which teacher educators will require for different purposes, so the title of this course is Writing Skills. Academic writing is given full weightage in this course.

Objectives:

- 1. To facilitate learners to understand different types of writing and writing styles
- 2. To enable the learners to write reports
- 3. To engage learners with journalistic writing
- 4. To develop creative writing skills amongst learners
- 5. To enable learners to handle professional writing

Transaction Mode: Different theoretical aspects of writing skills will be taught through presentation cum discussion mode. Practical exposure/group work/individual assignment/etc. will be given to trainees on differ kinds of academic writing.

Types of Writing and writing styles

Presentations on different types of writing (narrative, descriptive, persuasive, academic, creative, reflective Journal) and writing styles should be made by the teacher.ICT tools can be utilized for this purpose.

<u>Reports</u>; Sample Reports of Seminars, Project Reports, Research reports, Institutional reports, Field visit reports should be shown to students. This should be followed by a discussion.

Suggested Tasks--- writing reports.

Journalistic Writing and Expository Writing

Samples ofBook reviews, Film reviews, Editorials, Articles and Film scripts (as per requirement) can be provided to learners. Discussion can be encouraged amongst learners to understand features of journalistic writing.

Suggested Tasks--- writing book reviews, film reviews, editorials, articles

Creative Writing

Learners should be provided exposure to some literary works like poems, stories, travelogue, diary and children's literature. They can discuss on what makes literary works creative and also appreciate aesthetics in literary pieces.

Suggested Tasks- Writing poems, stories, travelogue, diary, film scripts and writing for children

Professional Writing

Samples of the letters, memos, official minutes, CV, official files for noting and drafting should be shown to learners. Let them discuss and understand the format and content.

Suggested Tasks- writing letters, resume, note, official minutes and memos.

Modes of Assessment: Assessment can be continuous and comprehensive, i.e., in each workshop and tasks suggested can be used for this purpose.

Note: Assessment will be by minimum two faculty members to award final marks. Rubrics will be developed with the help of faculty and students. The peers may also evaluate.

Suggested Readings:

- Murray, R. (2004) Writing for Academic Journals. Maidenhead: Open University Press.

GUMED - PC5: SOCIOLOGY OF EDUCATION

Credits: 3 Max. Marks: 100 Examination Duration: 2 Hours Internal: 50 Contact hours per week: Lectures: 2+Tutorials: 1 External: 50

Schools are the primary institution for instructing, training and socializing the next generation. The course on Sociology of Education critically examines the place and role of schools and schooling in the wider society. It is intended to familiarise students with the theoretical perspectives, dynamics of education practice in the context of society and school. Education as an institution is greatly influenced and determined by socioeconomic and political realities. While informing the student about these realities, the course will also familiarise the student about the social institutions and individual experiences which affect the education and its outcomes. The course relates to the education systems of modern industrial societies, changes happening within educational practices, major debates in educational research and policy and the alternative forms of schooling and their influences.

OBJECTIVES

On completion of this course the student will be able to:

- understand the nature and scope of Sociology of Education; analyze, interpret and synthesize various concepts and sociological principles related to educational phenomena
- to understand educational institution as an agency of socialization
- apply the knowledge of sociology in the analysis of present day educational system
- to analyze the relationship of education with culture, social stratification and social mobility
- reflect the educational issues that relate to education system and practice (iii) changes occurring in the framework of education and their factors and (iv) the need to have a critical understanding on education and society.
- analyze education from different sociological perspectives and theoretical frameworks.
- review the seminal works in the Sociology of Education

COURSE CONTENT

Unit I: Understanding Sociology of Education

- Sociology of Education:
 - Nature, scope, Need and Relevance
- Social Structure:
 - Meaning and Definition of Social Structure
 - Role and Function of Education in Social Structure
- Sociological Concepts and their relationship with Education:
 - Social Stratification:
 - Concept, and Types of Social Stratification
 - Education and Social Stratification
 - Social Mobility:
 - Concept, and Forms of Social Mobility
 - Factors affecting Social Mobility
 - Education and Social Mobility

Unit II: Social Context of School

- Schooling as a socio-cultural process
 - School as a Social Organization
 - Sociological Function of School
- Socialization: Stages, Types and Theories
- School Culture and Home culture: Issues of Conflicts and Compatibilities
- Peer Groups and Media: Socialization of Learners

Unit III: Sociological Perspectives and Thoughts in Education

- Functionalism:
 - Emile Durkheim: "On Education and Society"
- Symbolic Interactionism : Blumer- "Social interaction at school"/Rosenthal & Jacobson
- Sociological Thought in Education
 - Sociology of Knowledge: Karl Manheim
 - Social Character of Learning: Krishna Kumar

Unit IV: Sociology of Schooling in India

- Indian Social Structure: Caste, Class, Gender, Tribes and its bearing on Schooling
- Exclusion, Inclusion and Equity in India Sociological Analysis
- Indian Society: Issues and Concerns
 - Multiculturalism and Multilingualism- Sociological Reflections
 - Social Change & Social Control: Role of School
- Sociology of Teaching:
 - Teacher Personality: Conceptual Understanding
 - Teacher Authority vs Learner Autonomy: Reflections

Mode of Transaction:

• Teacher acts as a facilitator and delivers lectures on the concepts

- The course work will be carried out in the form of seminar. The prescribed readings are given in the references and students are expected to read the reference books before coming to the classroom. Students have to form groups consisting of 4-5 members and discuss their critical understanding pertaining to the readings given for the particular topic in each unit.
- Group presentations facilitated by the teachers will be one of the core components of the transaction

Sessional Work:

Students are expected to take two or more tasks to fulfil the sessional work

- Review the volumes "Field Studies in Sociology of Education" published by NCERT (1978)
- Book review pertaining to Sociology of Education. Apart from highlighting the ideas that book
 articulates and the way arguments with evidences are provided, students will have to critically
 review the strengths and weakness of the book. Also, the relevance of the book in understanding
 day to day phenomena that are happening in the school and teacher education system at large
 have to brought at the end of the book review.
- A term Paper based on the topics in the syllabus. It has to be very argumentative and analytical in nature.
- Thematic Presentations

Compulsory Reading:

Sadovnik, A.R. (2010) Sociology of Education: A Critical Reader. Routledge; 2 edition.

ISBN-10: 0415803705

Schools and Society: A Sociological Approach to Education

Teacher Education II

GUMED - TEC2: PERSPECTIVES, RESEARCH AND ISSUES IN TEACHER EDUCATION

Credits: 3 Max. Marks: 100 Examination Duration: 2 Hours Internal: 50 External: 50

OBJECTIVES

On completion of this course, the students will be able to:

- Conceptualize the meaning and different perspectives of teacher professional development
- Understand the policy perspectives on teacher education
- Understand the structure and management of teacher education
- Gain insight into the problems, issues and research trends in secondary teacher education

COURSE CONTENT

UNIT 1: Perspectives of Teacher Education

- Teacher Development: concept, factors influencing teacher development personal and contextual.
- Approaches to teacher development self directed development, co-operative or collegial development, change- oriented and staff development.
- Different organizations and agencies involved in teacher education- their roles, functions and networking.
- Preparation of teachers for various disciplines i.e. art, craft, music, and physical education existing programmes and practices.

UNIT II: Structure, Management and Quality Assurance in Teacher Education

- Structure of teacher education system in India its merits and limitations.
- Review of Recommendations of various committees, regulatory bodies related to teacher education; Kothari Commission, Justice Verma Committee, NPE 1986, POA 1992, NCFTE 2009, NCTE Regulation 2014.
- Universalization of secondary education and its implication for teacher education at secondary level.
- Meaning of quality assurance and its indicators in teacher education
- Role of different agencies in quality assurance of teacher development DIETs, SCERT, CTE, IASE, NCERT, NUEPA, UGC,
- Assessment of Quality of a teacher education programme/ institutes NCTE, NAAC.

UNIT III: Research in Teacher Education

- Trends of research in teacher education review of recent research studies in teacher education with reference to design, findings and policy implications.
- Areas of research in teacher education: teaching, teacher characteristics, teacher performance, teacher educators and teacher education institutions.
- Research on pedagogical approaches in teacher education including classroom processes.

UNIT IV: Problems and Issues in Teacher Education

- Single subject versus multiple subject teachers implications for subject combinations in initial teacher preparation.
- Issues related to enhancing teacher competence, commitment and teacher performance.
- Maintaining and implementing standards in teachereducation admission policies, staffing pattern, qualification and mode of recruitment and service conditions of teachereducators.
- Code of conduct and professional ethics for teachers

Sessional Work may include:

- > Study of Reports of various committees and commissions with reference to professional development of teachers.
- Select any one current practice in teacher education and trace the background of its formulation as a policy e.g. Internship in teaching.
- A critical appraisal of researches in areas of teacher education
- Critical Review of at least one Training material/package developed by the national/ state/ district level training institute

GUMED - PC6: CURRICULUM STUDIES

Credits: 3 Max. Marks: 100
Examination Duration: 2 Hours Internal: 50
Contact hours per week: Lectures: 2+Tutorials: 1 External: 50

OBJECTIVES:

On completion of this course the students will be able to:

- Understand the meaning, nature and determinants of curriculum
- Compare various types of curriculum
- Gain insight into the epistemological, sociological and the psychological bases of curriculum development.

- Conceptualize the meaning and various methods/media for curriculum Transaction.
- Understand the various guiding principles for selection and organization of learning experiences.
- Understand the process of curriculum evaluation
- Analyse the issues in curriculum evaluation

Unit 1. Concept, Bases and determinants of curriculum

- Meaning and nature of curriculum
- Concept of Core curriculum, Hidden curriculum, Spiral curriculum, Activity based curriculum and their relevance.
- Types of Curriculum: Subject-centered; Learner-centered; Community centered; Environment centered
- Psychological, Sociological, and Cultural basis of curriculum.
- Determinants of curriculum: Relevance, flexibility, quality, contexuality and plurality.
- Curriculum framework-need and importance; ramification of curriculum framework into curriculum, syllabus, units and textbooks.

Unit 2: Curriculum development

- Meaning of Curriculum development:
- Curriculum development as a continuous and cyclic process
- Components of curriculum development
- Aims and objectives of curriculum and their bases; Selection and organization of content and learning experiences: Principles and criteria for selecting content and learning experiences- Cognitive, Validity, Critical perspectives, applicability, Utility, objectivity, scope for inclusiveness, breadth of coverage and depth of understanding
- Organizing principles: continuity, sequence, integration with illustrations.

Unit 3: Implementation of Curriculum in School.

- School as site for curriculum implementation: Administration in creating context for curriculum development; Available infrastructure; Curriculum sites; curricular resources (text book, teacher's hand book, library, laboratory, school playground, neighborhood etc.)
- Teacher's Role in Curriculum construction, Curriculum Transaction and researching in curriculum.
- Teacher as a critical pedagogue.
- ICT in curriculum transaction.

Unit 4: Curriculum Evaluation

- Meaning of curriculum evaluation;
- Tools and Techniques of Curriculum Evaluation:
 - Observation; classroom interaction (with teacher and in peer group, group work) Oral : pretesting, diagnostic questions
 - o Interview: consulting users of curriculum, An opinonnaire
 - o Maintaining daily dairy by the children as well as teachers. Project work
 - Maintaining portfolio of the work and their presentation
- Formative Evaluation
 - Concept of formative evaluation, scope and importance.
 - Collection of appropriate evidences during designing of Curriculum
 - o Revision based on evidences during designing and trying out
- Summative Evaluation
 - Concept of summative evaluation, scope and importance
 - Summative evaluation based on Test

 Students reaction to instructional process (who have completed the course and are in job) teachers views concerning effectiveness of instruction; parents reaction about courses; Issues in Curriculum evaluation

Sessional Activities:

- Detailed study of National curriculum framework of school Education, India (1988 onwards) followed by seminar presentation.
- Preparation and presentation of paper on State Curriculum framework of different states in the country.
- Readings of selected papers on curriculum studies followed by presentations

GUMED -TC6: DISSERTATION

SI. No	Research Dissertational Activity	Mode of Engagement	Time required	End Product	Marks
1	Understanding the Objects of research in Education Lead Questions/Guided Questions What is/are objects of research in education? How diverse they are?	Debate and dialogue	2 Hours	Identification and listing of objects/issues/variables of educationPreparation of list and their nature; Either preparation of Table or listing them in sentences (in 500 words)	5
2	Identifying Research Areas Lead Questions/Guided Questions What areas of research interests you have? And why? Infrastructure related Process related Pedagogy related Policy related Socio-cultural aspects of schooling related and etc.	Self dialogue; Exploring one's personal interests, academic strengths and background to relate with research area; Seminar presentation	1 Week	Listing the area of research of one's own interest and mentioning the reasons. Which of the above falls within the expressed area of interest (Write up)	5
3	Review of research literature Lead Questions/Guided Questions How the review needs to be done? What is to be observed in RRL? Statement of the Problem. Variables of the study Objectives Research question/hypotheses Methods Findings and their interpretation How the research is conducted in the research literature that you are reviewing? What are the components that need to be seen in RRL? Where do you use the RRL in your research? Should the Theme based review is better? Should the Chronology of research be the better way?	Library work; Table work;	2 Weeks Two blocks of Two hours, per week	Identifying one study for each of the 'object'/issues/variables of study listed above; (as many and as diverse as possible) Review report writing and presentation	10
4	Evolving and Stating Research Problem Lead Questions/Guided Questions How do you state your research problem?	Classroom dialogue and seminar presentation	1 Week	Statement of the Problem Spelling out effect/relation/interaction between the variables	5

	Conceptualization of the Problem	Seminar presentation	2	Write up on	
			Weeks	conceptual/theoretical	5
				basis for the above stated	
				problem (1000 words)
